

2019 Health of the River Forum

at Calperum Station, Renmark, SA

from Monday 28 October - Friday 1 November

WHERE SCIENCE, THE ENVIRONMENT & COMMUNITY COMBINE

Bookings for this outstanding Rotary programme remain open until Friday 27th September.

Open for Yr 9- 10 students. Please contact your nearest Secondary School to encourage students to take part.

Rotary Clubs are encouraged to cover the cost of \$590 for this exceptional opportunity to engage students in finding out more about the importance of water quality management (River Health) and current research into land revegetation and rehabilitation, all aimed at this age level and by engaging students in hands-on activities.

ALSO, any Rotarians who wish to take part in this year's forum as volunteers, are now asked to contact Bruce Cole on 0414 825 454 or via email: brucegcole@gmail.com Only 6 volunteer places are required so get in fast! All fees are covered by camp funds but a current DHS Working with Children certificate is required. Contact Bruce if you wish this process to be enabled for you!

Go to the District 9520 Rotary website to download application forms and information brochures that detail the activities to be undertaken by this year's students.
