

Dear Rotarians

It is with great sadness we learnt a great Aussie cricketer and a huge supporter of ROMAC passed away on the 28th September 2016.

Max Walker was a key contributor to the establishment of Rotary Oceania Medical Aid for Children (ROMAC)

In the early days he provided invaluable assistance to Barrie Cooper in bringing an awareness of ROMAC and championing the concept of bringing life giving and dignity restoring medical aid to children of our neighbouring developing nations within the Oceania region. He was proud to be the national Patron of ROMAC and made himself available on countless occasions to energise support for ROMAC.

Without that support, ROMAC may not have become a Multi District Project of Rotary in Australia and New Zealand and 400 plus children would not have been the beneficiaries of that medical aid.

Max was also a contributor to the community in so many other ways and his Family is now looking to honour his wish to establish a bequest fund for the Australian Cancer Research Foundation.

In recognition of the work Max carried out to promote ROMAC, we ask you to encourage others to make a donation to the bequest fund. We ask that you circulate the request as far and wide as possible but in particular to Rotarians as recognition of what Max did for Rotary and specifically ROMAC.

Donors can respond through the following link:-
