THEME: 'FORGING AHEAD INTO THE TWENTIES'

Rotary is at a significant cross road and after rapid change in our society and almost 100 years of service in Australia, it's time for positive change to ensure we flourish into the twenties and beyond.

2019 marks the centenary of the declaration of world peace and the 180th anniversary of the arrival of courageous and innovative German migrants who forged ahead and flourished in Hahndorf. These journey's and milestones are worth considering as we forge ahead to create a new District.

Delegates will be entertained and inspired to reach for the future as we hear story's from speakers who have undertaken significant change journeys; It will also be a great opportunity to network and enjoy fun and friendships, as we reflect upon and honour the past.

FLEXIBILITY & CHOICE

Conference organisers have designed a conference that offers choice and flexibility to suit everyone enabling delegates to choose and pay for the options that suit their cost and time preferences. Those who like to enjoy a full program can stay over in this beautiful part of the world or alternatively delegates may prefer to travel to and from home if they live in nearby Adelaide and environs.
