

Vision Statement

Endorsed by 2017/18 Club Presidents at 2017 LRN events

Peter Schaefer- 2017/18 District Governor

A vision for the year

I intend to deliver exemplary governance, management and leadership and operate within a District culture that supports the efforts of our Clubs and their members.

Without favour I intend to focus on:

- Further building of a cohesive relationship between Clubs and the District.
- Assist the District and Clubs to embrace the challenges and opportunities that arise from the creation of the new District.
- Encouraging Clubs to take up environmental projects, such as tree planting at Calperum Station.
- Increasing membership as a continuing priority for Clubs and the District.
- Viewing project engagement by members as more important than meeting attendance and that Clubs move towards quantifying the dollar value of volunteering in their clubs.
- Supporting Clubs and the District to become more diverse and inclusive by developing close relationships with organisations that include under-represented groups.
- Encourage Clubs to engage with at least one International project.
- Encourage Clubs to undertake local projects and exploit the opportunities that arise to gain credit, recognition and publicity for their clubs and as an opportunity to attract new members.
