

Your Handheld, Smart,
Personal Defibrillator

For every home, business, workplace and community.
Be prepared and confident to act quickly to save a life.
CellAED® can be applied in seconds.

Graphics show how to apply the device on both adults and infants.

A perforated label marks the place for easy snap activation.

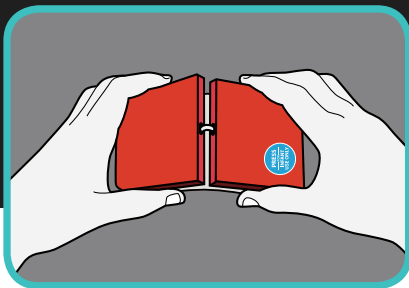

Audio speaker gives instruction on what to do, every step of the way.

Infant mode button for use on infants weighing less than 10 kg.

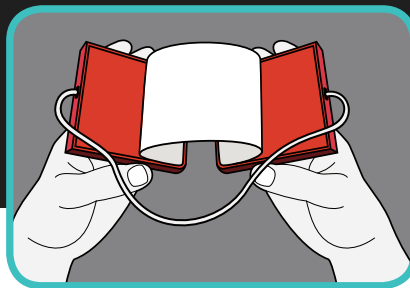

Length: 19.6 cm
Width: 9.3 cm
Depth: 1.7 cm
Weight: Approx. 300 g

LED indicator with periodic blinking showing the status of the device.

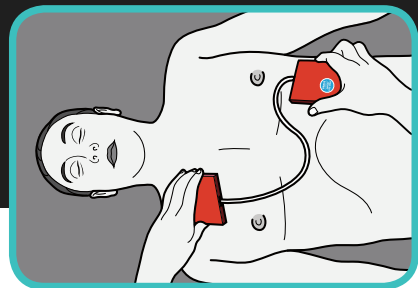

SNAP

Power device by snapping in half along perforated centre line. This will automatically start the audio instructions guiding you on what to do, every step of the way.

PEEL

Remove the protective liner under the device by continuing to separate the two halves. This will expose the integrated gel pads and extend the connecting cable.

STICK

For adults, place each half of the device on the bare chest (as shown). For infants, place one half on the infant's chest and the other half on the infant's back.

WHY CHOOSE CellAED®

- CellAED® is Australian designed and manufactured, and the initial cost is significantly lower than current defibrillators.
- CellAED® is easy to use, light and portable.
- CellAED® does not require a phone signal or mains power for use.
- Easy and affordable monthly membership program after initial purchase with exclusive benefits.
- Ideal for staff health and wellbeing programs, staff rewards or incentives, or for your local sporting and community groups.
- For training email sales@productsnow.com.au or visit www.productsnow.com.au
