

Pieces of Peace

As we welcome in the new calendar year, the District 6650 Peace Committee renews its hope for a year of peace, blessed with mindful appreciation of the fragility of peace-keeping.

Rotary extensive efforts include training peace leaders through our Peace Centers, supporting conflict resolution in communities with mediators and community builders, and embedding peace principles (like dignity, fairness, and human rights) into their service projects.

Using the 8 Pillars of Positive Peace, Rotary encourages creating environments where peace can flourish through kindness, equity, and human rights. From large-scale efforts to individual actions to build peace in our communities, Rotary's work remains dedicated to this essential area of focus.

We want to take this opportunity to thank all the clubs throughout our District who signed on to join us in **our mission to become a 100% Peacebuilder District.**

The invitation to become a Peacebuilder club remains open and active! To learn more please visit the Rotary Action Group for Peace at: <https://www.rotaryactiongroupforpeace.org>

As each of our clubs declare their commitment to peace, we send a powerful message to each of our communities about Rotary, our values, and the work we do to bring people together in peace to do good in the world.

As we begin the second half of our Rotary year, remember that our District Peace Chair Mgr. Robert Siffrin, one of the most popular members of the "District Speakers Bureau", is available to speak or answer any questions you have.

His email address is: rsiffrin@youngstowndiocese.org
