

Integrate Credit Card Payments into your Club or District Site!

We've made it easy to accept online credit card payments through your ClubRunner site, with the *Online Payment & eCommerce Module*. Already integrated with Dues & Billing and MyEventRunner™ for event registrations, you can choose when and where you want to allow online payments, or just use the Virtual Terminal to process transactions manually. All funds are deposited immediately into your bank account, and your reports on ClubRunner will automatically link payments with members and events, so you don't have to consolidate attendee reports with bank statements anymore!

Pricing

The Online Payment & eCommerce Module has everything you need to process payments online, including your own eCommerce merchant account and integration with a gateway. ClubRunner is proud to partner with trusted payment processors to offers reliable, secure and cost effective electronic payment and authentication services. We've kept pricing simple with one flat rate that includes everything you need to get started, no surprises. This depends on which country you are based in, so contact us to get the most up-to-date pricing and an application form to get started.

ClubRunner's Online Payment & eCommerce Module also includes:

- ✓ **FREE Integration** with ClubRunner's **Dues & Billing Module**, and **MyEventRunner Lite** for public event registrations
- ✓ **FREE Web POS/Virtual Terminal:** Eliminate the need to swipe credit cards. Perfect for phone-in/fax/mail-order transactions.
- ✓ **FREE Recurring Billing:** Cut down on late payments, follow-ups and timely manual entry - let the system charge the right amount on the right date.
- ✓ **FREE Batch Processing:** Upload hundreds of credit card transactions at once using a simple upload format. All transactions are processed in real time on secure servers.
- ✓ **FREE Online Reporting Tools:** Access a range of downloadable reports to view payment activity.

True API Integration

The Online Payment & eCommerce Module captures credit cards right on your site or registration form, so you don't have to redirect users to a separate web site. We also use APIs to process transactions in real time, so you will know for sure which payments went through and for which members and which events. This gives you more control, and accurate reports.

Dormancy Periods

Only need to process credit cards for a short period of time each year? We're happy to announce that the Online Payment & eCommerce Module can be paused throughout the year, for a lower monthly fee, so that you don't have to pay when you don't need it. Contact us for more information and pricing.
