In **South Sudan**, millions of women and children trek for up to eight hours a day to collect water from marshes, ditches, or hand dug wells where water is often contaminated with parasites and bacteria. The results are sickness and often death.

**Water for South Sudan** empowers people in remote villages to change their lives. By providing access to clean, safe water and facilitating hygiene education, they sow the seeds for growth. Once a well is drilled, schools, markets, and clinics spring up and life changes.

**Water for South Sudan** has been Interact's international fund raiser for the past three years. Through the combined fund raising efforts of Interact clubs and their supporting Rotary clubs, we have raised in excess of \$9,000. As a way of thanking us for our support and donation, the people of South Sudan have named a well in Interact's honor.
