

# ROTARY CLUB LIAISON

Since 2000, ShelterBox has grown from one club's adopted project to the largest Rotary club project in the 100+ year history of the organization.

ShelterBox became Rotary International's first project partner in 2012.

The project partnership will build on both our strengths in responding to disasters all over the world.

Are you a Rotary Club member? Interested in being a club liaison for ShelterBox?

Sign up to receive deployment updates and access to pertinent webinar trainings so you can be "in the know" and share disaster relief information with your Rotary club.
