Warsaw Wilanów  
International

Dear Rotarians!

We wish to present you our project to help people in Ukraine in these tragic circumstances.

Rotary Club Warszawa Wilanow-International, the English-speaking club of Warsaw, is working with numerous Rotary clubs in Europe, United States and elsewhere in order to support Ukrainian hospitals, medical centres, doctors and emergency medical facilities throughout Ukraine.

We also help refugees who have reached Poland and need to be taken care of in the best possible way. They are usually mothers with children who are suffering terribly from the trauma which has been inflicted on them.

In more detail, we are collecting funds to ship medicines and materials, needed to assist persons wounded by the fighting, shelling and bombardment, to the Lviv District Administration, which distributes the medicines and medical products to hospitals in the Lviv region and beyond, wherever that is possible and needed. Since Lviv, in the western part of the country, is still relatively safe, it is a hub where a large part of the Ukrainian population is sheltering. In addition it is where the injured and wounded from other parts of Ukraine are often brought. As we know hospitals in many parts of Ukraine are being targeted and therefore not a safe place to carry out many of the needed treatments and operations.

Delivery and logistics inside Ukraine are being organised by the Lviv District Administration and they also make use of warehouses on the Polish side of the border, particularly in the Polish border town of Przemyśl, where supplies from the West are delivered.

Your contributions to this project are highly prized and will be appreciated by the people of Ukraine in their time of greatest need.
