

# GLOBAL GRANTS

- Have measurable results

## Understanding the Global Grant Model :

- Global Grants are a different model than Matching Grants
- Supply alone is not sufficient for a Global Grant.
- Supply must be coupled with suitable training and ongoing maintenance systems ( examples )
- Supply can also create local employment
- Applications must include the processes for measuring sustainability.
- Allowances must be made in the budget to cover monitoring and evaluation over at least 3 years.

## AREAS OF FOCUS

Projects that receive Global Grant funds from The Rotary Foundation should fall under at least one of the following:
