GOALS FOR THE YEAR

1. Increase Club participation for all youth programs
2. Youth & Membership Symposium (August TBC)
3. District wide youth program review
4. Development of Rotary Mentoring Program
5. District Family Fun Day's
6. Charter a new Rotaract and Interact Club

MUNA

Phil Wishart

ONE WEEKEND, 120 STUDENTS, ONE AMAZING EXPERIENCE

ONE WEEKEND, 120 STUDENTS, ONE AMAZING EXPERIENCE

ONE WEEKEND, 120 STUDENTS, ONE AMAZING EXPERIENCE

Welcome to the Home of the Rotary District 9685 Model United Nations Assembly (MUNA)

Rotary District 9685 spans from Sydney Harbour up to Toukley on the Central Coast, and from the Blue Mountains to the East Coast of Australia.

Please click on the MUNA that best matches your school's location:

Northern Sydney
MUNA (14-15th May
2016)

(Recommended for Schools that are
located **East of Parramatta**).

Western Sydney MUNA
(28-29th May 2016)

(Recommended for Schools that are
located **West of Parramatta**).

Central Coast MUNA
(Thursday 19th May)

(Recommended for Schools that are
located **North of the Hawkesbury
River**).

Please contact Phil via eclub.greatersydney@gmail.com if you have any questions about which MUNA is most appropriate for your school.

MUNA – WHAT IS IT?

- Set up in a United Nations format with speaking protocols, Secretary General and resolutions to debate.
- A 1 or 2 day debating style program.
- Teams of 3 representing the political, religious and cultural beliefs of a country.

MUNA – WHY WE DO IT

- A popular youth program within Rotary – 3 MUNA programs in D9685, including the introduction of Western Sydney MUNA in 2016.
- Provides students with a greater understanding of UN.
- An opportunity for students to network and learn about other Rotary programs.

MUNA – HOW IT WORKS

- Schools enter teams of 3 students
- Approximately 40 teams participate at the event.
- Teams are allocated a country 2 months prior to the event – the need to learn as much as possible about the context of the country they will be representing (political status, religious, position within UN etc)
- Teams are provided with the resolutions 2 months in advance. They prepare their responses based on whether they are for the resolution, against the resolution or wish to make an amendment.

D9685 MUNA – NATIONALLY RECOGNISED

- In 2015, SHORE School attended National MUNA as the Runner Up of D9685 MUNA and won.
- The team then took the opportunity to travel to New York for the International Model UN.
- Our MUNA program receives enquiries from clubs, schools and students around the country as our website displays a professional view of the program.

MUNA – 2016 DEVELOPMENTS

- New Website – Directs schools and clubs to the most appropriate MUNA in the District.
- MUNA Operations Manual – Legacy for future clubs.
- Full review of program processes and operations to bring the program into the 21st Century e.g. Online voting.
- Western Sydney MUNA – to meet the long term demand of the District.

MUNA – CHALLENGES AND OPPORTUNITES

- Western Sydney MUNA – spaces still available for 2016!
- New host club 2018-2020 – interest from Ryde and Beecroft.
- Developing a key contact list with the schools – this is where local clubs can assist.

RYPEN: DAVID CLARK

CONOCOPHILLIPS SCIENCE EXPERIENCE

PDG Marilyn Mercer

BRIEF HISTORY OF THE SCIENCE EXPERIENCE

- 1988-89 Rotary Club of Doncaster & the Australian Scientific Industry Association, developed the idea
- 1990 First program runs at Monash University Clayton
- Siemens commenced naming right sponsorship, reducing it in 2009 and concluded finally in 2012
- Rotary Districts adopted it as a Youth Service program
- ConocoPhillips commenced naming right sponsorship in 2013
- Program now runs in 34 - 37 different venues annually

Three/ four days of hands-on science and technology
fun and activities for young Australians
in years 9 and 10

- The program is **non-selective** and open to **ALL** students in Years 9 & 10
- Practical involvement in laboratory experiments
- Engagement in “***real science***”
- Share in discussions
- Mix with other like minded students
- Experience genuine passion for science

AGRICULTURE

ASTRONOMY

BIOLOGY

CHEMISTRY

COMPUTER MODELLING

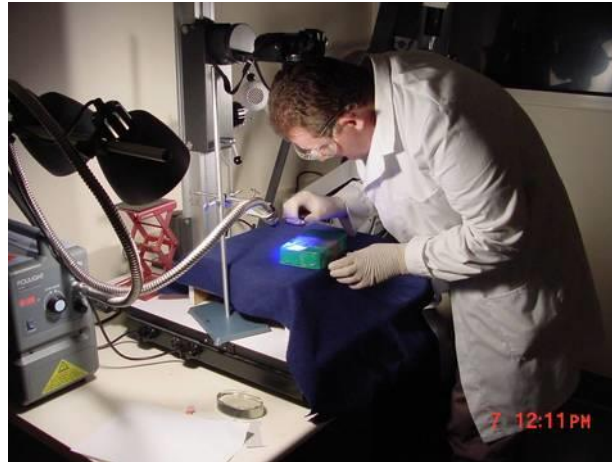

DENTISTRY

ECOLOGY

FORENSIC SCIENCE

MARINE STUDIES

MEDICINE

METALLURGY

PALAEONTOLOGY

PHYSICS

PHYSIOLOGY & PHARMACOLOGY

ZOOLOGY

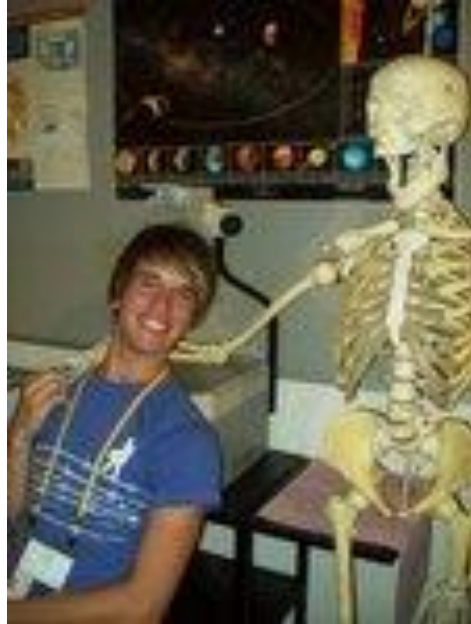

VALUE FOR MONEY

- Fee per student, for enrolling is \$120 for 3 days and \$160 for 4 days
- Each program has a range of activities - experiments, short lectures, career information, site visit and information for future studies
- Approximately 3,000 students take part each year
- Most programs run during the school holidays

WHO RUN THE PROGRAMS?

WHO?

- **Local directors and local organising committees**
- **University personnel**
- **Australian Science Teachers' Association**
- **Science Schools Foundation Inc.**
- **Young Scientists of Australia**
- **Rotarians in some districts**

ROLE OF ROTARY CLUBS

- Provide financial support for individual students in need of registration, transport or accommodation, or a combination of all three.
(Rotary clubs provide about 16% per year).
- In the last few years D 9685 fewer than 10 students
- Provide catering support such as BBQs
- Arrange home stays
- Provide supervision
- Serve on local organizing committees

challenge

SCIENCE AND ENGINEERING CHALLENGE

Gavin Ralston

A DAY THAT CAN CHANGE A LIFE

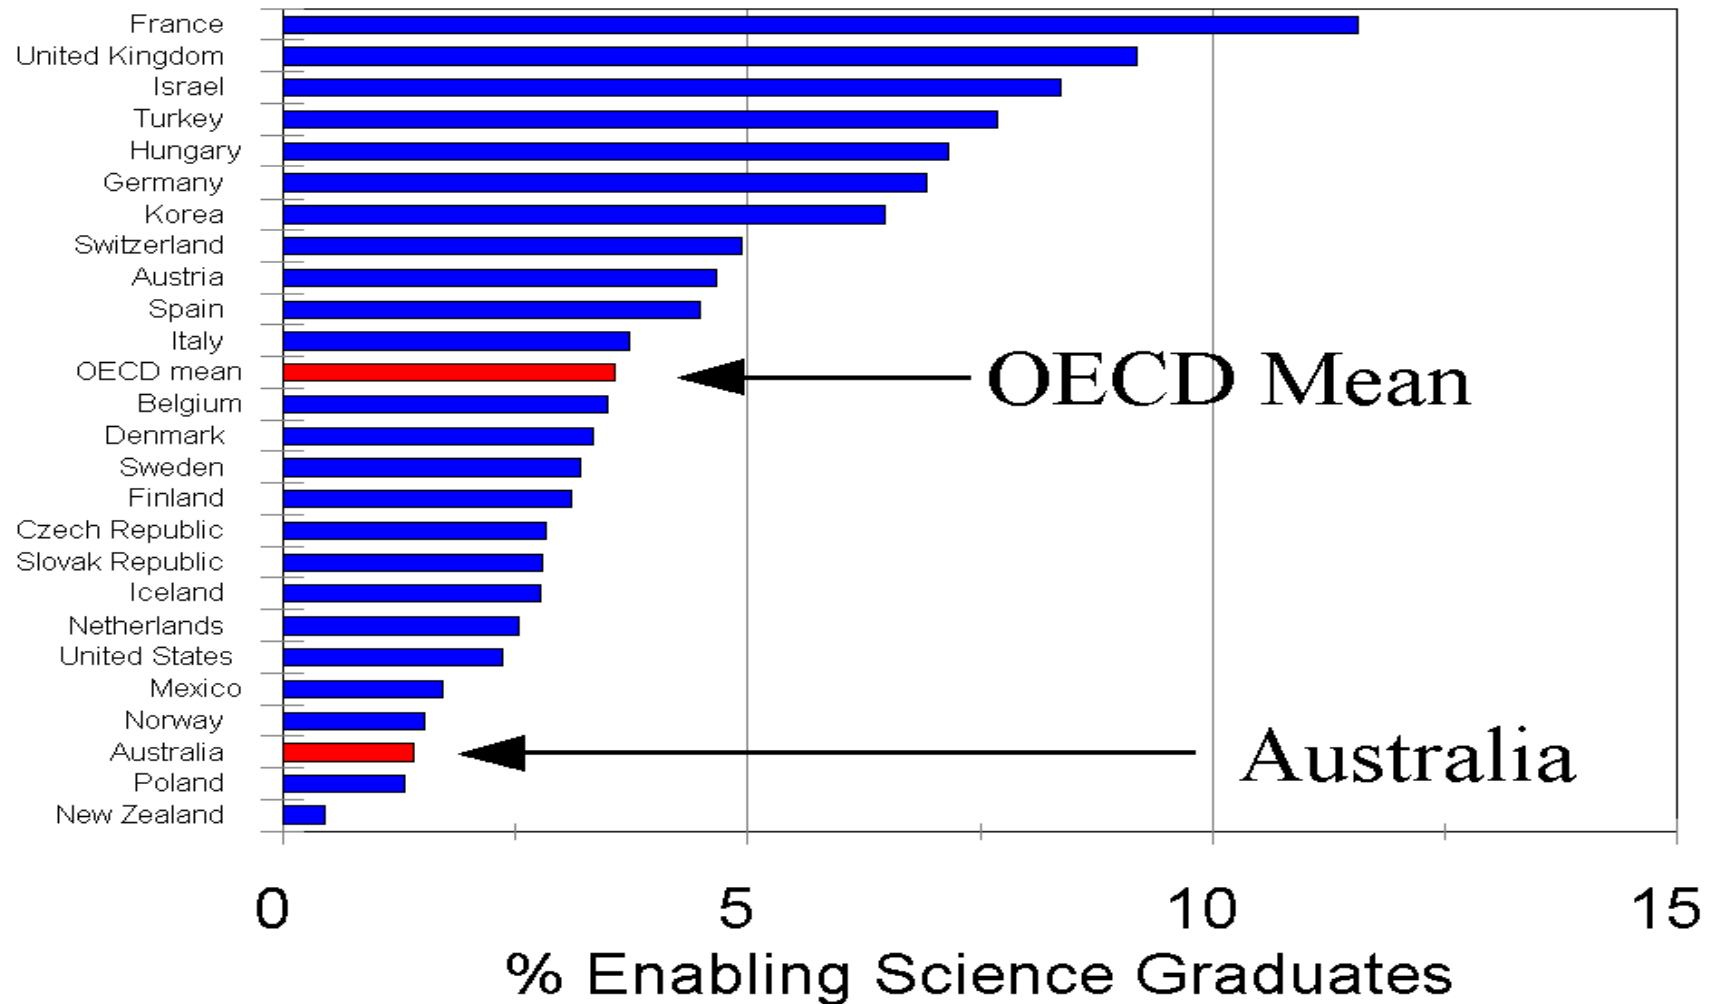

science and engineering
challenge

Rotary
District 9685

The Science & Engineering Challenge was developed by The University of Newcastle to encourage students to include science based subjects in their final years of high school.

Should we be here ?

Percentage of Engineering graduates amongst all university-based Tertiary graduates*

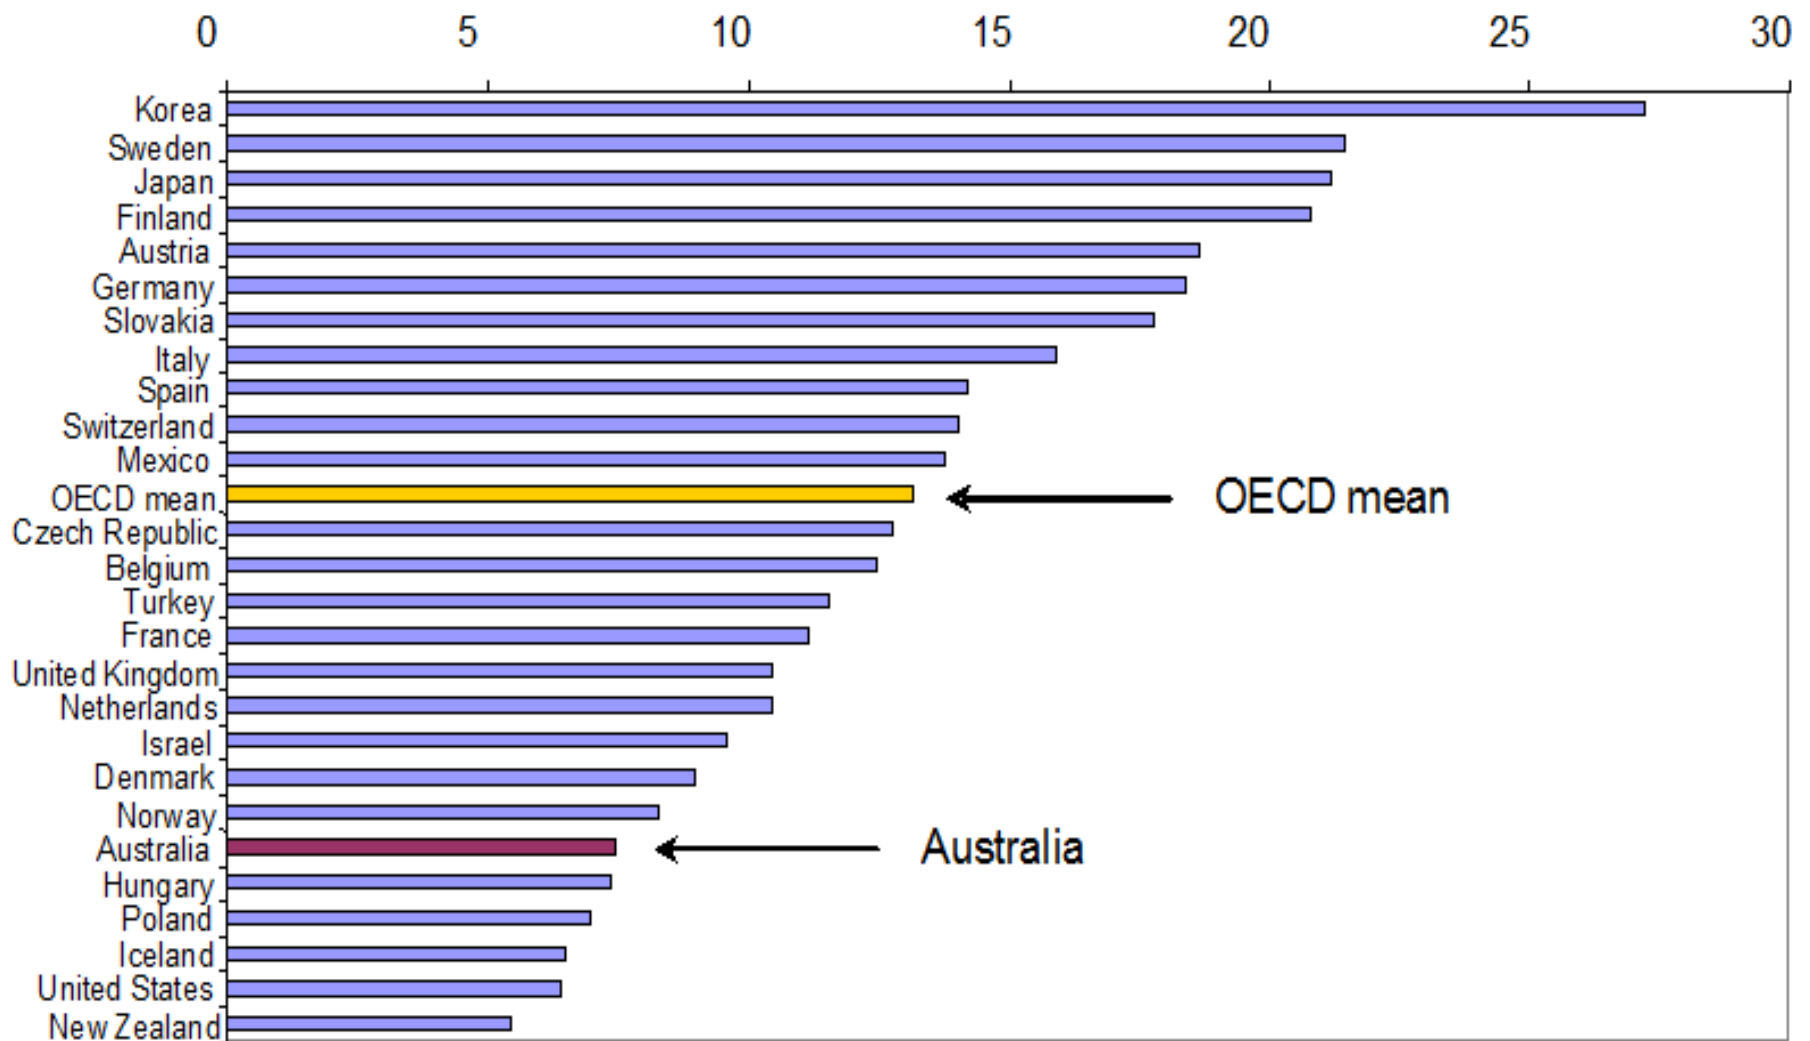

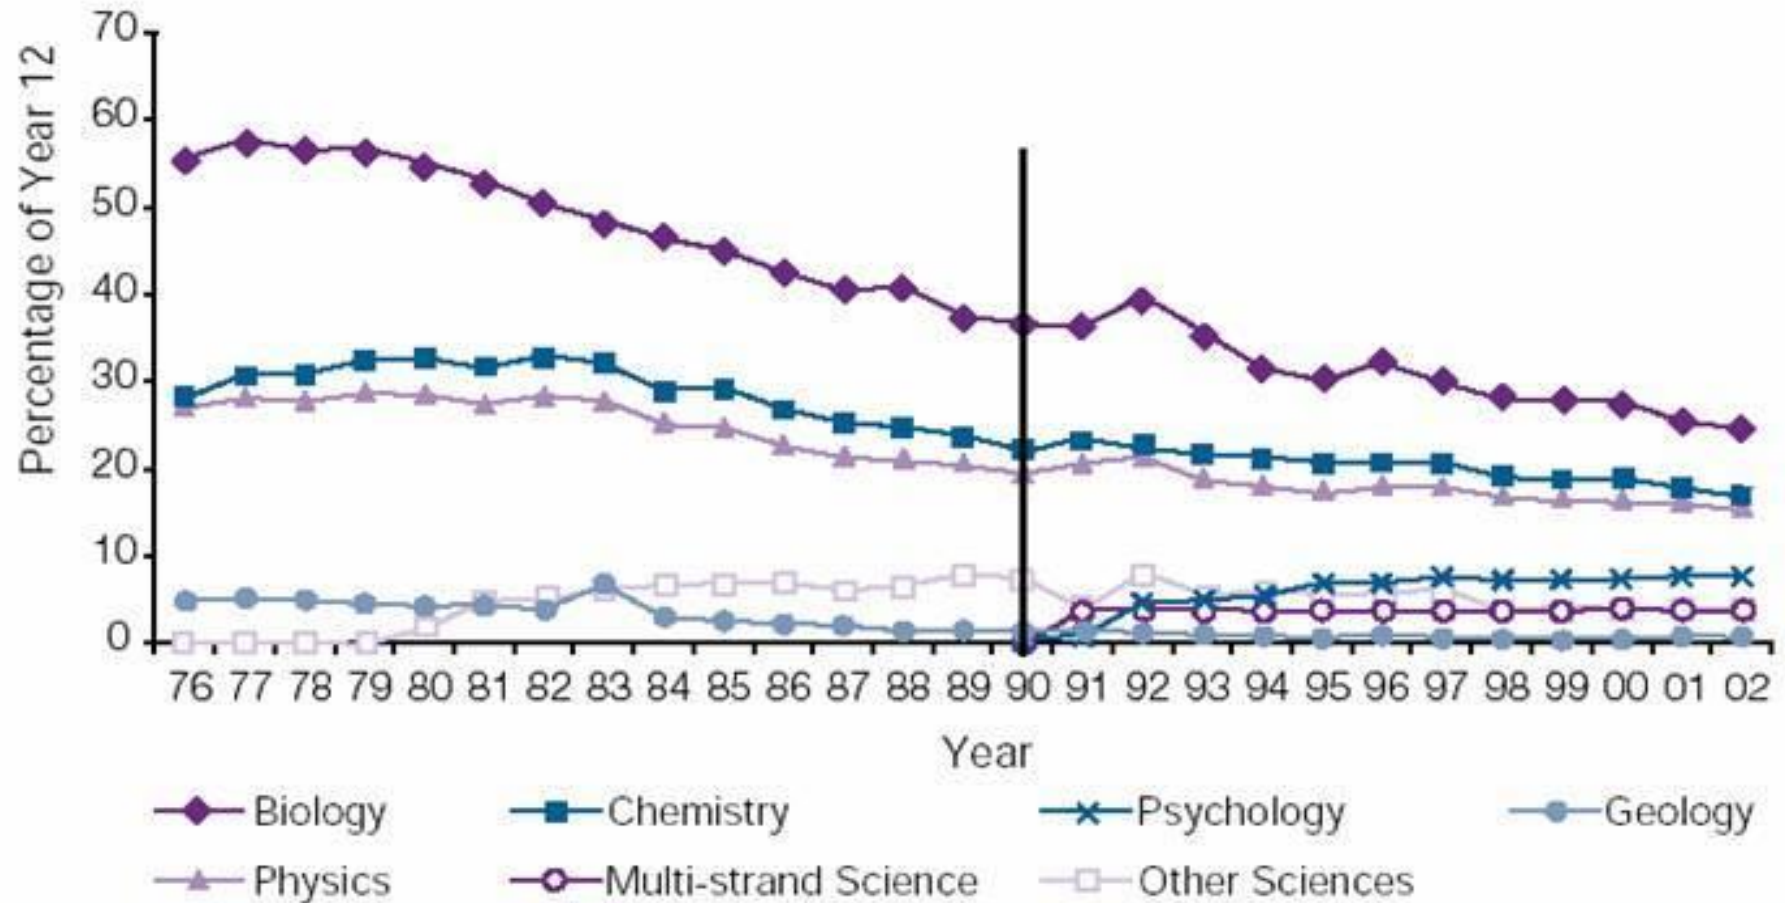

Figure 2.1: National participation rates among Year 12 students in science subjects, 1976–2002

Source: J Ainley and C Underwood, *Australia's Teachers: Australia's Future*, Volume 3, 'Background data analysis', Review of Teaching and Teacher Education, DEST, Canberra, 2003.

The Challenge stimulates
and excites young
minds showing them
that you don't have to
be a nerd to enjoy
science.

School teams
compete
against seven
other school
teams using
only the
materials and
equipment
provided

Students are allocated
to one of eight
Challenges available
on the day.

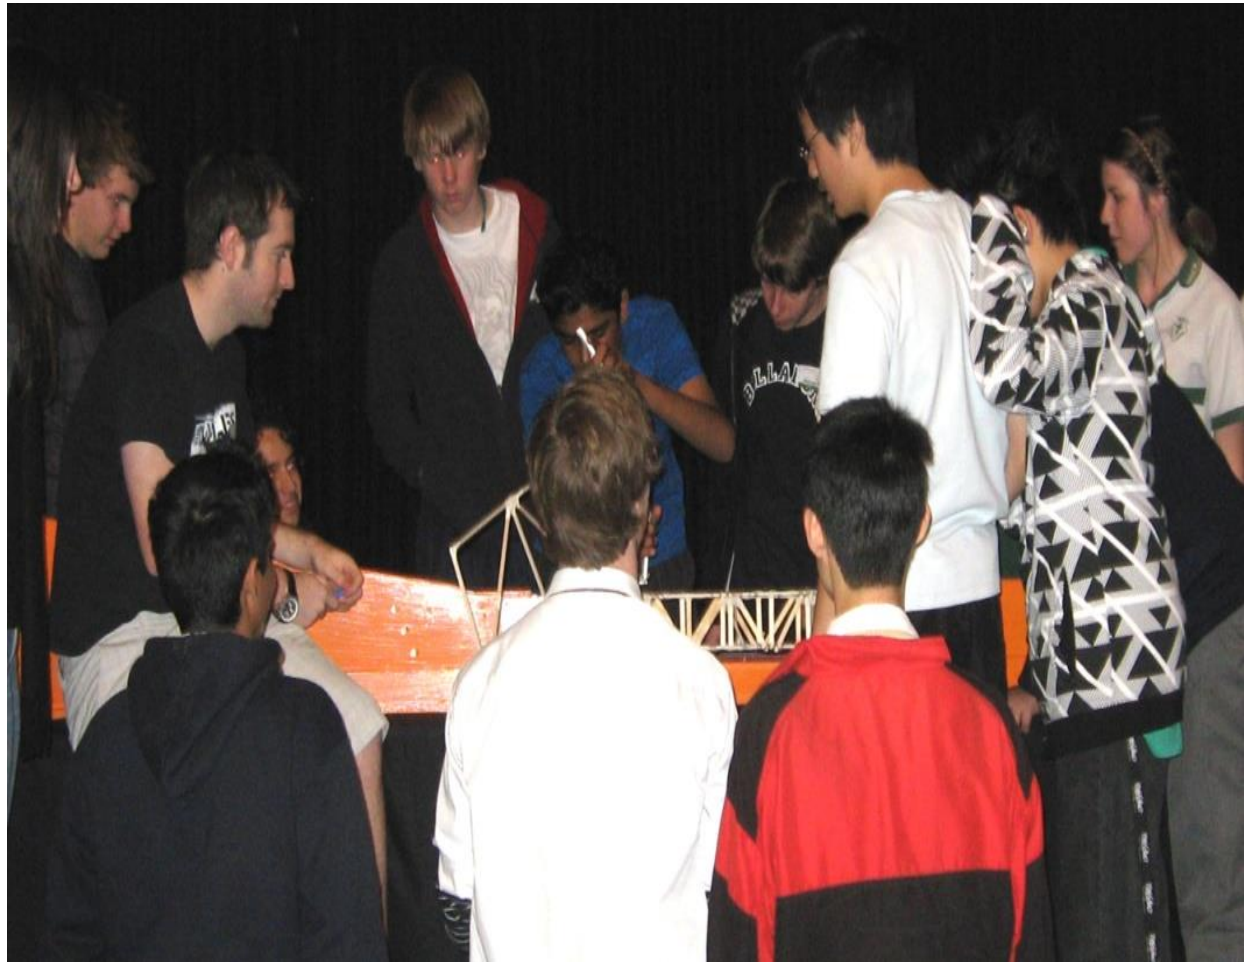

Challenges are as
diverse as
bridge building,
code breaking
&
creating electrical
circuits

8 schools
X
32 students

= 250 +.

IT WORKS!

Research findings

Participation in the Challenge:

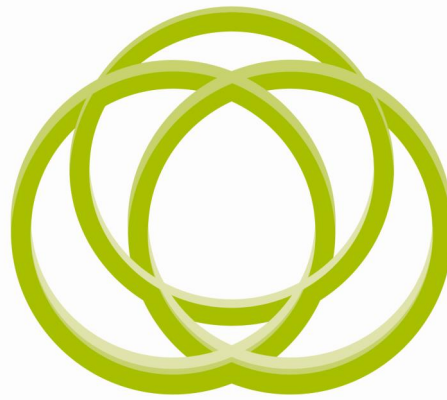

- Increases student's **awareness** of careers in science & engineering.
- Increases **interest** in Science and Engineering
- Influences **decisions** to undertake science and maths in high school
- Dramatically improves **teamwork & self confidence**

The Challenge is in its
17th year
and is a
national program.

In 2016 there will be 10
Challenge days in Sydney

science and engineering
challenge

REMAINING SYDNEY 2016 CHALLENGE DAYS

Western Sydney University, Kingswood
Blue Mountains Grammar School
Olympic Park Sports Centre
Gaulston College Ingleside

HOW CAN YOU HELP?

Encourage & Sponsor local schools to attend.

Rotarians can act as supervisors.

Contribute towards costs.

Run a local Challenge.

What you can do for us..

- Share your experiences at our meetings
- Sponsor our projects
- Promote our clubs
- Mentor our members
- Provide flexibility for us to join your membership
- Sponsor us to District Conference, RI Convention!!

Membership Starts With Friendship

LUNCH

We resume again at 1.30pm

ROTARY YOUTH EXCHANGE

Sue Rice

rotary
youth
exchange

Rotary
District 9685

ROTARY YOUTH EXCHANGE PROGRAM 9685

- Youth Exchange students from district 9685 are students who are:
 - outgoing,
 - willing to try new things,
 - want to learn a new language,
 - adventurous,
 - Mostly from Government Schools and
 - about to learn a whole lot about themselves and about Rotary.

GOALS FOR THE YEAR

- We are already number 1 district in Sydney for Youth Exchange.
- Restructure the committee along geographical lines
- Increase number of clubs hosting students

OUTBOUND STUDENTS in 2017

- Currently Year 9 or 10 (2016)
- Return to start Year 11 in 2018
- 18 preliminary applications

INBOUND STUDENTS in 2016-17

- Attend year 10-11 or 11-12 in Australia
- Usually have not finished school in their home country
- Pam Bennett has papers for placement

HOSTING

- Exchange = exchange Students Come & Go
- Hosting – vital part of program
- Inbound students – 3 or 4 families
- Outbound student families – host for 6 months
- Clubs need to find only 2 families
- Combine with another club

ROTEX

- Students mentoring inbound and returned students
- Too young to join Rotaract
- Keep them connected with Rotary with young ideas & approach.
- Join Rotary & help Rotary with “Service Above Self”

Training - Mentoring

- Certification Morning - 18 June – Lindfield
 - Club Counsellors,
 - Host Families
 - Youth Officers, Club Presidents
- <http://www.rotaryyouthexchange.net.au>
- Secretary@rotaryyouthexchange.net.au

- ~ Specific facilitator will call RYLarians the week before to answer any questions and confirm transport arrangements

Please email rylad9685@hotmail.com with any questions

INTERACT

Jayne Mote

Interact

Rotary Sponsored Club

Rotary
District 9685

**In 1949 The Rotary International
Board Adopted The Slogan:**

“Every Rotarian An Example To Youth”.

Interact Is A Service Club For Youth Aged 12 To 18.

DISTRICT 9685 INTERACT PRESENTATION 2016

They are school based clubs, and meet at least twice a month.

When you sponsor an interact club you are helping young people to connect with community leaders and develop leadership skills.

DISTRICT 9675 INTERACT PRESENTATION 2016

Currently there are 20,046 interact Clubs worldwide with an estimated Membership of 461,058.

The top 3 countries are:-

India _5,910

Usa _ 4,818

The Philippines _954

Australia_223.

DISTRICT 9685 INTERACT PRESENTATION 2016

District 9685 has 8 chartered clubs

The oldest being Abbotsleigh

The newest club Brisbane waters Secondary college.

My goal is that every Rotary club in D9685 should sponsor an Interact Club.

Realistically by year end I hope we can show progress.

DISTRICT INTERACT PRESENTATION 2016

Interact clubs helps to recognise and develop constructive leadership skills and personal integrity.

- Builds respect for the rights of others and emphasize acceptance of individual responsibility.**
- To develop life skills, self development, time management, and to recognise the dignity and value of all useful occupations to serve society.**
- To provide opportunities for gaining increased knowledge and understanding of community, national and world affairs.**

A recent survey held in NSW schools, covered student connectedness, well being, schools and communities.

Survey results showed increased engagement at school, higher levels of school completion and academic achievement.

Reduction in anti-social or disruptive behaviours.

Strategies for improving better connectedness to the school, families and community

Could be:-

Empowering students to have a voice.

Engaging community partners to provide a range of services that the school students need.

This to me is our Rotary entry point.

**When you sponsor an Interact
Club it becomes a joint activity
Between the two clubs.**

**Students have the guidance of
Rotarians who help with
their chosen fundraising
Event.**

Rotarians are encouraged to

- **ATTEND INTERACT MEETINGS.**
- **ALL CLUB MEMBERS, NOT JUST LEFT TO THE YOUTH DIRECTOR.**

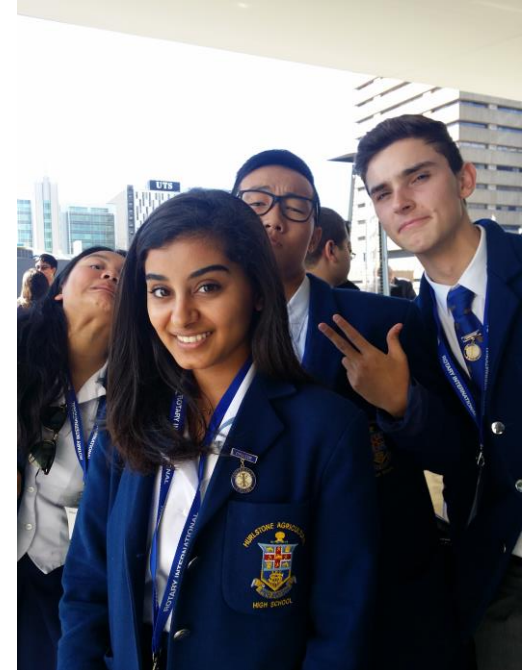

Rotary clubs have a captive audience to discuss other Rotary youth programs such as RYPEN, Youth Exchange and RYLA.

DISTRICT 9685 INTERACT PRESENTATION 2016

May 2 will see the 2nd annual Interact conference sponsored by district 9675. This year they have extended the invitation to district 9685 and d9670.

Registration is now open please, ask me for the details.

Lastly don't forget Interact Week which will be held between 2nd and 8th November.

A great opportunity to launch new interact clubs.

I'm happy to visit any clubs who wish to further explore this part of our rotary family.
