

SOAP AID™

S A V I N G L I V E S

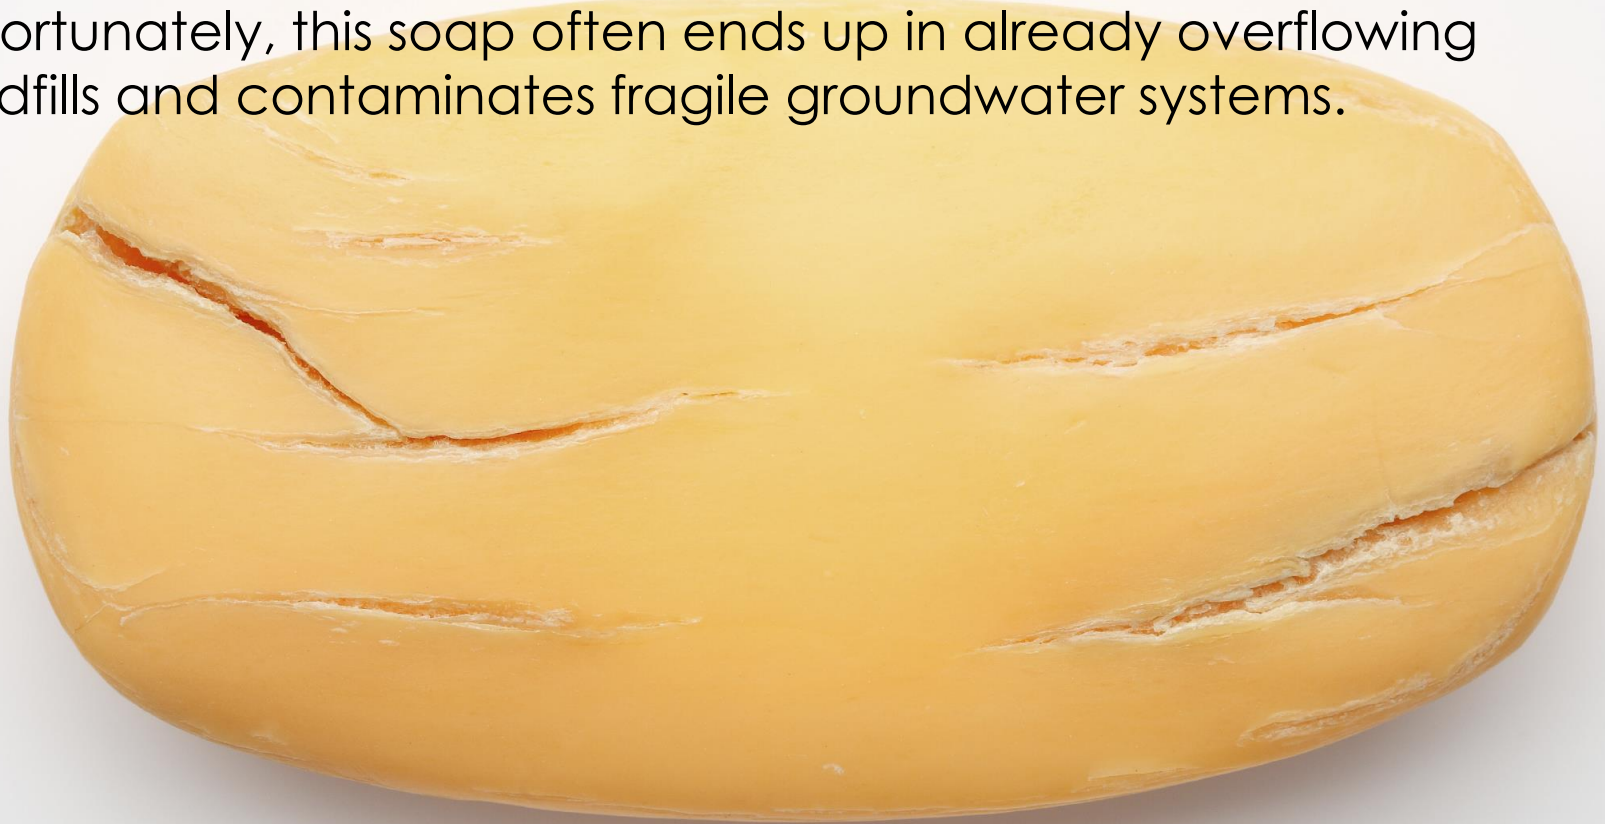

Did you know today across the globe over 2 billion people lack adequate sanitation. As a direct result, it is estimated that 1.8 million children under the age of 5 die each year due to hygiene related illnesses.

This equates to 6,000 deaths each day.

SOAP AID

And, did you know that every day, thousands of hotels across the globe, discard millions of pieces of soap? Unfortunately, this soap often ends up in already overflowing landfills and contaminates fragile groundwater systems.

SOAP AID

Our Vision is to create A Sustainable Difference

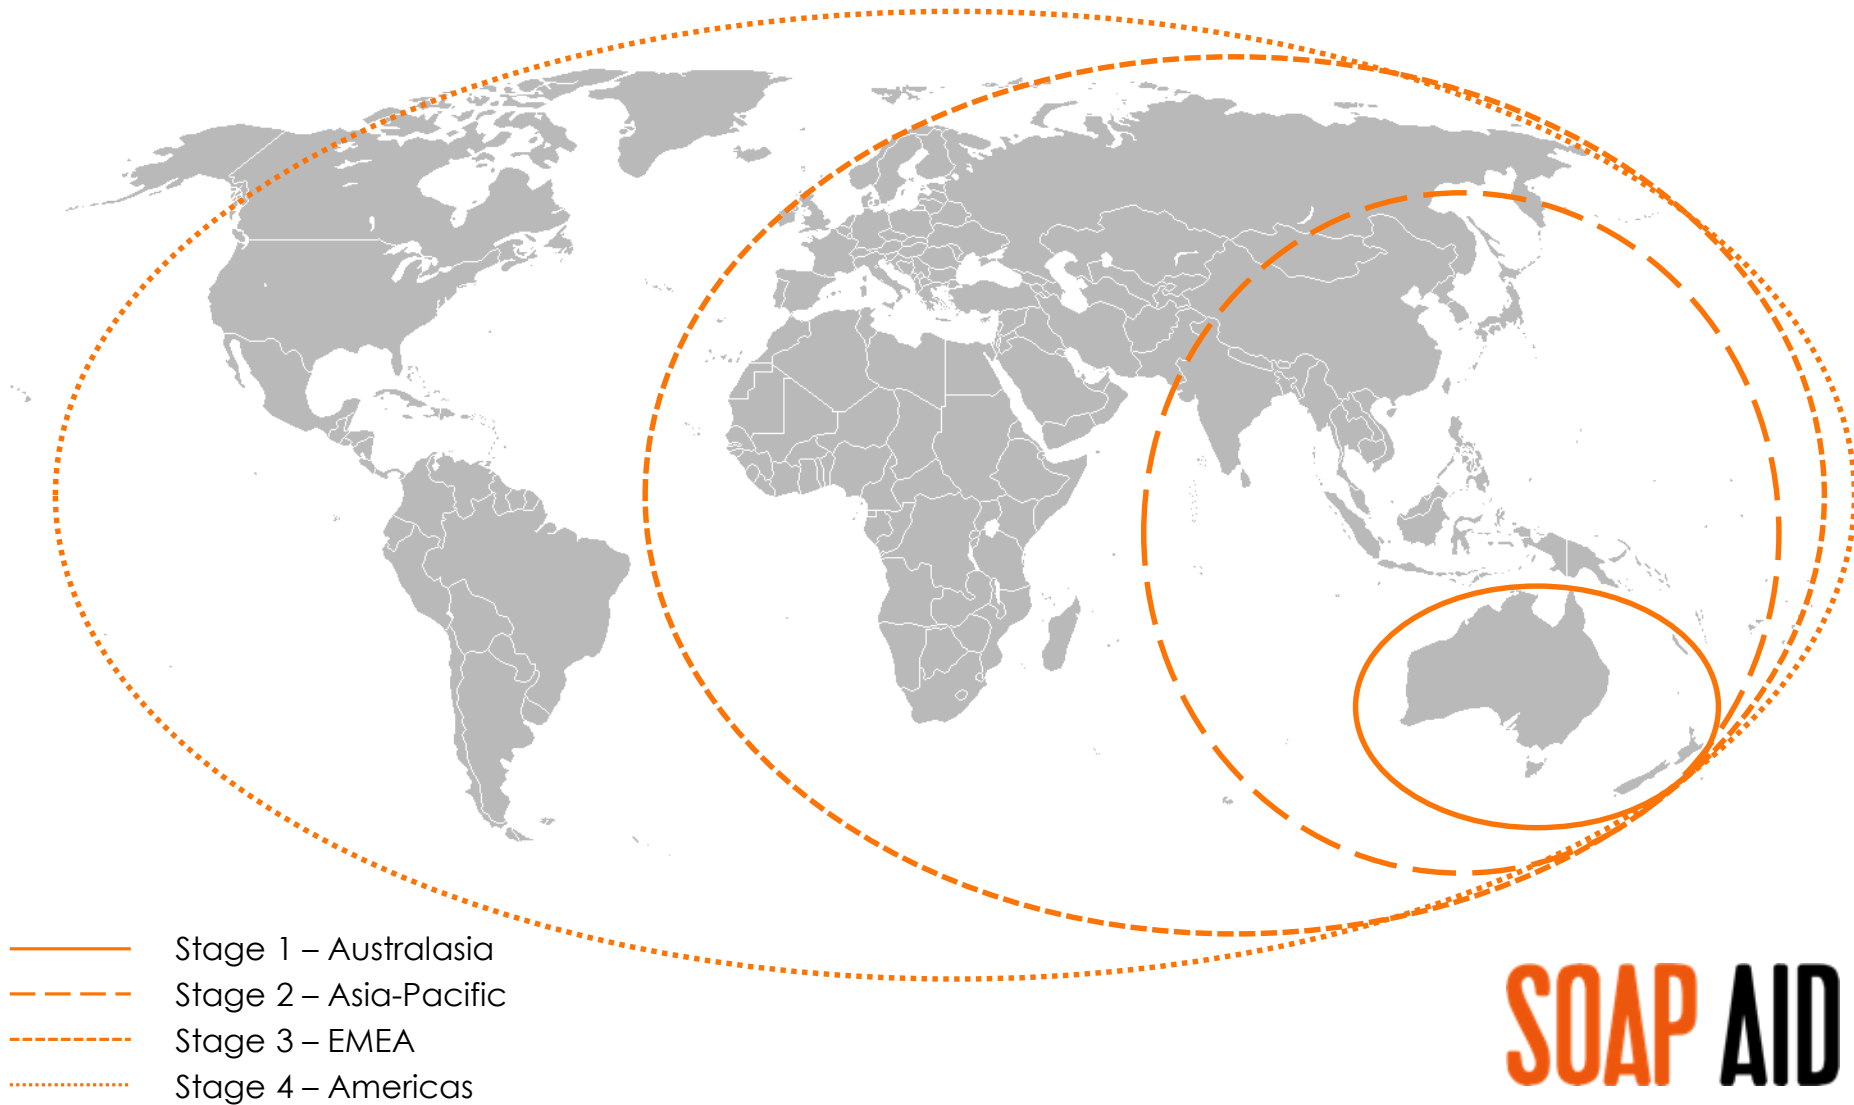

1. Humanitarian program... saving lives
2. Environmental program... recycling waste

The Waste Collection + Return

The Pathway

Hotel – to – Hands

SOAP AID

The Process ...at the Hotel

Keep the original outer cartons that your new soaps are delivered in. These will come in handy to return the waste soaps.

Organise for a small clean container to be placed on the Housekeeper trolleys for collecting the waste soaps from the guest rooms.

When collecting the waste soap, please keep separate from all other waste items and packaging. It is preferable to discard any soggy soap.

MAXIMUM
12kg

At the end of each shift, transfer the collected waste soap from the trolley containers into the original outer cartons. Ensure to line outer carton with a heavy duty bag. Weight of cartons to be kept to a maximum of 12kg.

When cartons are full, seal with tape and apply the attached label to both sides of the cartons for easy identification of destination details.

Place the full cartons of waste soaps in the loading dock or designated area for collection by Rotary.

Once six cartons of soap have been collected, please advise your Rotary contact listed below that the cartons are ready for collection.

PICK UP

Collection from your property will preferably be on a Sunday, negotiated with the Rotary representative. It would be greatly appreciated if there was someone on site to assist with the transfer of the waste soap into the collection vehicle.
