NYSF International Program

Stockholm International Youth Science Seminar

ralia.

Indigenous science programs

In October 2011
we launched the
Perth Indigenous
Youth Science
Forum.

25 students from remote
WA at a 4-day
residential program in
Perth.

National Science Teachers Summer School

January 13 - 19

**Places for 45
teachers from
around the country**

**Workshops, lab
visits, and the
chance to mix with
top-line researchers
and educators**

*...a joint initiative with the Australian Science Teachers Association,
and supported by the Australian National University and the University of Canberra*

Outcomes

So where do all these bright young things end up, and does the NYSF make a difference?

- 
- 98% did a University degree
 - Of those, 82% had studied science or engineering
 - 85% reported that the NYSF profoundly affected their choice of course, university, and/or their career path

NYSF 1989

- Presenter ABC-TV's "Catalyst",
- SBS Series "Eco House Challenge";
- Author, Environmental Campaigner

NYSF 1990

Tanya Monro in 2012

- ARC Federation Fellow,
- 2008 Prime Minister's Physical Scientist of the Year
- Director, Institute for Photonics & Advanced Sensing, University of Adelaide

- 
- Local addition is the 4 day University of Western Sydney Program
 - Done on a reduced scale but program covers some of the features from National Program.
 - 60 places and over subscribed this year for the first time.
