# INTRODUCING THE 2015 SIXTH 600 KM. CONGO CANOE CHALLENGE

## ACCEPT THE CHALLENGE

Support a team of Australian volunteers, including two Rotarians and two doctors, who are making a 600 km river journey in August 2015. The team is focused on providing medical training to a remote community of 6000 people, accessible only by canoe. We will navigate three mighty rivers in a motorized dugout canoe to work side by side with Congoese community leaders on projects we've helped build since 2005.

### Training will include:

- Neonatal emergency care
- Ebola prevention
- Family planning
- Trauma management
