

# LIGHT UP ROTARY THROUGH COMMUNITY SERVICE

ROTARY INTERNATIONAL DISTRICT 9685

MARCH 2015

HELLO AGAIN,

March - world “**Literacy Month**”. What does your club do to assist either in your local community, Australian community or overseas. Please send me your stories to share. Maybe you spend a few hours a week listening to a child read at your local school. I have included information regarding the Seniors Short Story Competition. If you are not a Senior you will surely know someone who is.

March 5 is **International Women’s Day**. See the information which follows about RC of Hunters Hill - **International Women’s Day: the art and soul of peacebuilding and Celebrating Women on the Central Coast** Don’t forget your donation to the **ANZAC Centenary Garden Project**.

**BowelCare** kits will be distributed on 2 days only: Friday 17 and Saturday 18 April See following notice for details

In May, we are encouraged to “**Kiss Goodbye to MS**” by holding a Bunnings BBQ and donating the proceeds to Multiple Sclerosis research. Start planning now.

A really full newsletter once again. Finally check out “Sunnies at School” A Qs one who is to have cataract operations in the next few weeks I can see this program as a valuable Community Service.

## PROBUS

*Active Retirees*<sup>TM</sup> magazine is available online. All links in the magazine are active in the digital version, making it easier for you to follow up any information in the articles or email someone if you have any queries.

[Click here to subscribe to the current issue.](#)

In the Dec-Jan issue, Tony Martin, the Probus Cover Star of the Year, was introduced. Ever since he was a young boy, Tony has had a great passion for motorcycles and travel. During his life, he has seen 68 different countries and while he may be retired, life has not slowed down at all for Tony. At 64, he walked the Inca Trail with his wife Lorel for the first time and over the last few years he has ridden his motorcycle around India and Iceland.

## Wheelchairs for Kids

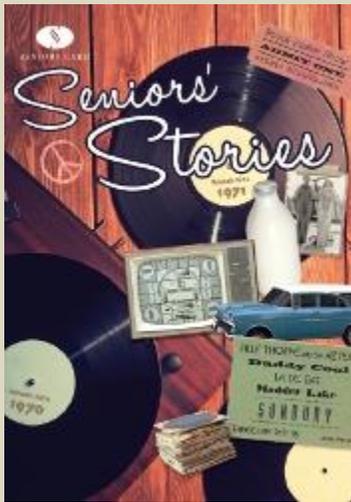

Retiree volunteers in Australia use your donations to make and distribute up to 300 wheelchairs per month to poor disabled children in developing countries. Millions are needed, but everyone makes a difference. Please help.

Every \$150 raised gives a child the freedom of mobility and liberates a carer.

The ABC recently did a story on Wheelchairs For Kids recently on the 7.30 Report. It can be [viewed here](#).

## NO REST FOR TURRAMURRA'S GRAFFITI REMOVAL TEAM

WHILE STILL REMOVING GRAFFITI ON A WEEKLY BASIS AROUND THE TURRAMURRA/WARRAWEE AREA THE TEAM HAS BEEN HELPING OUT IN OTHER WAYS.

In January, the Team provided some participants of the District 9685 RYLA course with a graffiti removal activity .....and left the Elanora Heights shops free of graffiti.

In February, the Team participated in the Community Crime Prevention and Safety Day organized by St Ives Neighbour Watch attracting Federal and State MPs Paul Fletcher (Hon Member) and Jonathan O’Dea.

If your club is looking for a great community hands-on project that promotes your club, strengthens relationships with your local community and has potential for new members then just contact:

“Sunnies at School” would like to introduce a healthy alternative to the traditional donut and chocolate fundraiser.

Sue and John believe that their “Sunnies At School Program” can not only raise valuably needed for your club or local school but more importantly address the important health issue of eye protection for students.

While many adults know the importance of covering their skin and putting on a hat when

going out in the sun, the need to protect young eyes is often forgotten.

New research has found that Australian children as young as eight are showing signs of serious eye damage from exposure to the sun’s harmful ultraviolet (UV) radiation. This exposure can lead to conditions such as inflammation of the cornea, cancer, cataracts - a leading cause of blindness, as well as pterygium (a fleshy growth on the cornea).

Schools are central to protecting children’s skin and eyes. This is because:

- Children are at school five days out of seven, at times when (UV) radiation levels are high.
- Most damage due to sun exposure occurs during the school years.
- Schools can change behaviour through role modelling and education.

If your club is interested in this program, please contact Sue and John and they will be happy to answer any questions you may have and arrange for a FREE sample to be sent out.
