

THE APHASIA AWARENESS DELEGATION WOULD LIKE TO TALK TO YOU!

THREE ROTARIANS, THREE INSPIRATIONAL STORIES OF RECOVERY.

Diane Finch, Sean O'Brien and Bernard Chandra are all long term members of Rotary. They have also all experienced first-hand the devastating impact of stroke and brain injury. Their recoveries are remarkable, and their presentations are entertaining – but their message is also powerful. Do you know how to speak to someone with **APHASIA?**

CALL OR EMAIL TO BOOK OUR SPEAKERS FOR YOUR CLUB IN 2016 – NO COSTS INVOLVED.

TAAD

Imagine waking to a world where you are unable to use language.
Welcome to the world of APHASIA.

More than **80,000** Australians are living with Aphasia, and this number increases each year.

Aphasia can be caused by stroke, brain injury, brain tumour or degenerative disease.

We need to make Australia Aphasia-friendly, and we need your help.
