

## District Visioning Event

Save The Date!

**Mission:** *Visioning* creates an awareness within a club for the purpose of creating or updating a club's Strategic Plan. Part of this outcome should help clubs determine their relevancy within their respective communities.

**Location:** West Valley College (WVC) cafeteria

**Date/Time:** Saturday, Sept. 9<sup>th</sup> from 9 AM – 3 PM (Lite breakfast and lunch included. Coffee, tea, and water provided during entire day. If clubs want to bring additional munchy food, that will be great!)

**Attendees:** 18 round tables with seating for 8 (The plan is to allow a club to have one table with up to 8 members.)

This event should be significant for these reasons:

1. Even though only 18 clubs could participate, it could create a model for extending this to other areas of our District.
2. This will create an urgency for clubs to create or update their Strategic Plans.
3. This "group" approach should also help develop the collaborative effect proposed in this year's Public Image plan.

**Costs:** Each participating club will pay \$125. (District is paying for half of the program.) Registration will be required!

### **Initial process:**

1. Each participating club will need to determine the eight members to attend. This should include the club President and maybe the President-Elect. Include key committee members.
2. Once registered, each club will receive a pre-event package that is to be shared with your club board in determining SMART goals. You need to come somewhat prepared!

### **Expected Outcome:**

1. Revised Club Strategic Plan.
2. Means by which to track Club successes.
3. Plan of Action to share with your club. *Visions that result in Actions!*
