TRF NEWS TODAY

SEPTEMBER, 2019

CURRENT NEWS OF DISTRICT 5170 AND THE ROTARY FOUNDATION

FROM THE DISTRICT TRF CHAIR

By PDG Russ Hobbs

You never know where a conversation about Rotary might go. But in the case of Past District Governor Loren Harper, it led to District 5170's single largest Legacy Gift to The Rotary Foundation. Dr. Jean Paul Jacobs was Loren's client, and was in Loren's office going over his investment portfolio when the conversation turned to Rotary.

Dr. Jean Paul Jacobs

Dr. Jacobs knew about Loren's trips to Brazil with the Sister Families Project, which Loren chaired for our District, and wanted to know more. This project matched orphans who lived on the streets of Brazil with families in Brazil. Dr. Jacobs grew up in Brazil and was keenly aware of the problems of these street children. He wanted to help.

Dr. Jacobs therefore asked Loren to work with Rotary International to set up a trust that included Rotary International in his legacy giving. Dr. Jacobs passed away on April 7, 2019 and the first installments of his Legacy Gift has now been received. His total gift will exceed \$4,000,000!

We all have Rotary conversations with our families and circle of influence, but we never know where these conversations might lead. Sometimes they result in new members joining our ranks; sometimes they result in family members accompanying us on humanitarian grant trips to far off places; and sometimes they result in Legacy Gifts to The Rotary Foundation as was the case with Dr. Jean Paul Jacobs. While Dr. Jacobs never joined Rotary, he was an Honorary Member of the Fremont Morning Rotary Club.

PDG Loren Harper

R4hobbs@aol.com

Dr. Jean Paul Jacobs

Dr. Jean Paul Jacobs received his Bachelor's degree from Brazil's Technological Institute of Aeronautics in 1960, and took a job as a trainee in aerospace and industrial control in France and Holland. Then in 1962, he joined IBM as a research engineer in the company's Nordic Lab in Stockholm, Sweden. During his 42 years with IBM, Dr. Jacobs created IBM's first Scientific Center in the Southern Hemisphere and the institute for Software Engineering in Brazil. He was instrumental in creating IBM Scientific Centers in Paris and Mexico City, and was the Scientific Consultant for IBM Latin America. His responsibilities included developing partnerships between IBM and universities. And after he retired from IBM in 2002, Dr. Jacobs remained IBM's Campus Relationship Manager for U.C. Berkeley.

Russ Hobbs

SPECIAL RECEPTION FOR A ROTARY FOUNDATION TRUSTEE

The Rotary Foundation was formed in 1918 with the mission to enable Rotarians to advance world understanding, goodwill, and peace through the improvement of health, the support of education, and the alleviation of poverty.

The Foundation's operations are governed by a 16 member Board of Trustees, including a Chair and General Secretary. Trustees are appointed for a term of 4 years. Rotary International Zone 26 is the home of one of the Trustees, Brenda Cressey, a member of the Rotary Club of Paso Robles.

The District is delighted that Brenda will be visiting the District and has issued an invitation to all current District Major Donors to meet with Brenda at a special reception in her honor.

Around the Clubs

An Ambulance for Mothers in Uganda

By Marlene Cowan, Rotary Club of Los Altos

DISTRICT DESIGNATED FUNDS (DDF) AVAILABLE – What a conundrum—we had DDF about to expire, but no partner club! The Los Altos Rotary AIDS Project (recently renamed CHAP for Child Health and AIDS Prevention) had been seeking an African club to reduce mother-to-child transmission of HIV. An ambulance would save lives of both mothers and their infected infants during difficult deliveries and postpartum follow-up. But TRF had not been funding ambulances for our purposes.

ONLINE SEARCH – The RI website showed a completed grant by Sam Farouk Mukasa-Kajubi of the Kololo-Kampala Rotary Club, Uganda. To learn more about his experience, Dr. Jack Higgins, Marlene Cowan, and Wendy Walleigh of Los Altos Rotary discussed his community's needs via Zoom, a phone service similar to WhatsApp. By conference call he introduced us to Caleb Babihuga who became our primary contact. We had confidence in their abilities to manage our grant.

Local leaders and a team of Rotarians assessed community needs.

COMMUNITY ASSESSMENT – Sam Farouk had already composed an article for RI about community assessment. He consulted his community leaders about their central hospital and its twenty dependent health units; North Kigezi IV is a Maternal and Child Health unit.

NEEDS – Rates of maternal and newborn mortality are high in Uganda, and most patients at North Kigezi IV are young pregnant mothers with malaria and communicable diseases. With an average of 10 persons per household in this community of 320,000 people, food insecurity is severe due to dense population, depleted soils, lack of job training, and very difficult transport for urgent medical care. They needed an ambulance.

AMBULANCE AND HIV/AIDS – When we learned the good news that TRF's Board had approved the topic of ambulance funding, the requested ambulance was included into our grant application. It

Ugandan Mother who would have benefitted from an ambulance

Continues on next page

provides medical equipment to the North Kigezi Health Center and training to officers carrying out postnatal home visits to improve maternal and newborn health. The ambulance will improve referral of mothers to increase levels of care. To sensitize the community to HIV transmission, outreach to schools is planned in an adolescent-friendly program.

VOCATIONAL TRAINING –Vocational training is important for young women who cannot advance in education and so are vulnerable to pregnancy. Therefore, this grant includes 10 sewing machines and include selection of 20 young women for tailoring training to sew products to sell for economic development. In the self-sustaining plan, the first group will train the next 20 girls with these marketable skills.

At the central hospital, here we see the planning team for North Kigezi IV: Caleb Babihuga at left, Doctor Kaganzi, in charge of the hospital and Sam Farouk Mukasa-Kajubi at right

Health care necessities had been reduced to a minimum in North Kigezi Center. For \$73,041 USD both a) maternal and child health and b) economic and community development will be improved. This will save lives of mothers and children in a wide area of depressed villages around Rukungri, Uganda, District 9211.

Sam Farouk and Caleb visited Northern Kigezi and shared their photos with us in Los Altos.

Editor's Note:

You can learn how the Los Altos Rotary Club helped change attitudes about AIDS throughout our district and worldwide from *Stories Behind The Los Altos Story: Rotary Volunteers Confront HIV/AIDS* by Marlene E. Cowan. Just click [HERE](#)

The Paul Harris Society

By Pat McMenemy, District 5170 Paul Harris Society Coordinator

On September 11, 2019, the 18th anniversary of the September 11, 2001 attacks, we remember the nearly 3,000 people killed, including the many brave first responders who put their lives on the line in service to others in the immediate and subsequent aftermath of the attacks.

More than 50 years before the September 11, 2001 attacks, Paul Harris offered this wisdom:

“When an individual, a sect, a clique or a nation hates and despises another individual, sect, clique or nation, he or they simply do not know the objects of their hatred. Ignorance is at the bottom of it.”

Today, one of The Rotary Foundation’s Six Areas of Focus is: *Promote peace*. In its support of this Area of Focus, The Rotary Foundation has partnered with six world recognized universities to create the Rotary Peace Centers.

As you will see in the following list, The Rotary Peace Centers span the globe and include:

- Duke University and University of North Carolina, North Carolina, USA
- University of Queensland, Brisbane, Queensland, Australia
- International Christian University, Tokyo, Japan
- Uppsala University, Uppsala, Sweden
- University of Bradford, West Yorkshire, England
- Chulalongkorn University, Bangkok, Thailand

Each year, Rotarians across the globe work to further our goal of making world peace and understanding a reality through the projects of The Rotary Foundation.

To join the Paul Harris Society or receive more information, please contact:

DDF and YOU!

By PDG Tim Lundell, Annual Giving Chair

How much do you know about DDF? There is a popular rumor that this acronym was created by The Rotary Foundation as a reminder that DDF stands for “Don’t Dare Forget!” to make your Annual Giving donation each year to assure that your Club receives TRF funds for its District and Global Grant projects. Well, that’s a good thought if not exactly accurate. DDF actually stands for a less exciting phrase, “District Designated Funds,” but the sentiment is exactly the same. Let me explain. Each year, our District 5170 receives an allocation from The Rotary Foundation, which (in simplified terms) is equal to 50% of the average of the past three years of our total Annual Giving donations. So, for example, if the Annual Giving totals from the Club for the three reference years were \$680,000, \$700,000 and \$760,000, our DDF allocation would be 50% of the average, or \$356,667. After making special allocations for our scholarship programs and other special targeted projects, at least 85% of that money is allocated directly back to the Clubs to use for Grant Projects, in direct proportion to how much each Club participated to the donation total over those three years. So there you have it. Your Club’s allocation of the TRF funds is directly a function of how much you and your fellow Club members have donated to the Annual Fund. The more you give, the more your Club gets...a fact that you “Don’t Dare Forget!”

Next Month, More Acronym Stories: What the Heck is EREY?

Around the Clubs

Your fellow Rotarians would love to hear about any relatively recent projects in which your club participated or is working on, funded in whole or in part by The Rotary Foundation. This issue features the Rotary Club of Los Altos. If you might be interested in submitting an article for our “Around the Clubs” feature, please let me know. (Project related photos are very welcome.)

Some Information from our District 5170

Major Donor/Triple Crown Chair

By Phillip Dean

MAJOR DONOR

The Rotary Foundation's Major Donors are essential to securing and growing Rotary Programs throughout the world. The Rotary Foundation awards special recognition to Major Donors to express its gratitude for their commitment. For their \$10,000 donation, Major Donors can choose a crystal recognition piece and a Major Donor lapel pin or pendant. Recognition items commemorate

giving at these levels:

Level 1: \$10,000 to \$24,999

Level 2: \$25,000 to \$49,999

Level 3: \$50,000 to \$99,999

Level 4: \$100,000 to \$249,999

ARCH KLUMPH SOCIETY

Named after the sixth president of Rotary, the Arch Klumph Society recognizes The Rotary Foundation's highest tier of donors — those who have contributed \$250,000 or more during their lifetime.

Membership in the Arch Klumph Society is lifelong. Each member has the opportunity to have his or her portrait placed in the Arch Klumph Society Gallery, located on the 17th floor of Rotary International World Headquarters in Evanston, Illinois. Portraits are etched on glass plaques to create a stunning display of our Foundation's most valued supporters. Members will also have their profiles included in an interactive display, plus receive pins, pendants, and several other benefits commensurate with their generosity, such as invitations to society events, along with membership pins and crystals that commemorate giving at the following levels:

- Trustees Circle: \$250,000 to \$499,999
- Chair's Circle: \$500,000 to \$999,999
- Foundation Circle: \$1,000,000 to \$2,499,999
- Platinum Trustees Circle: \$2,500,000 to \$4,999,999
- Platinum Chair's Circle: \$5,000,000 to \$9,999,999
- Platinum Foundation Circle: \$10,000,000 and above

WHAT YOUR GIVING SUPPORTS

Charity Navigator has ranked The Rotary Foundation number one in the world, with a score of 100 due to its exceptional financial management.* Donors should feel confident that The Rotary Foundation puts their donations to good use. They enable the Foundation to carry out an array of programs through Rotarians and Rotary clubs around the globe. In 2017 - 2018, the Foundation awarded \$156.5 million in PolioPlus Partners grants, \$76.9 million in 1,306 global grants and \$27.4 million in 503 district grants. These grants promote peace, fight disease, provide clean water, save mothers and children, support education, and grow local economies through grants that, among many others:

- Bring peacebuilding seminars to 200 teachers and 1,300 students in Uganda;
- Distribute insecticide-treated mosquito nets and medical services that help prevent malaria in Mali;
- Train teachers who are establishing an early-childhood education center in South Africa.
- Provide water filters, toilet blocks, and hygiene training to prevent fluorosis in a community in India;
- Fund a scholarship for a medical professional to research ways to minimize mortality rates among premature babies in Italy;
- Protect children around the world from polio;
- Improve living conditions for needy families locally and globally;
- Increase food production and clean water programs;
- Provide equipment and educational materials for schools;
- Allay the suffering of the sick and disabled by providing immunization, medical treatment, and rehabilitation, and;
- Provide new channels for international understanding, and brighter hopes for peace through Ambassadorial Scholarships and Rotary World Peace Fellows.

TRIPLE CROWN DONOR REPORT

It is very early in the new Rotary Year and at the moment there are only three Rotarians in the District who have qualified for the distinction. However, there are 31 Rotarians who are both Bequest Society Members and Major Donors and thus need only to become Grand Donors to qualify.

**To see for yourself, just click [HERE](#)*

The mission of the Rotary Foundation of Rotary International is to enable Rotarians to advance world understanding, goodwill, and peace through the improvement of health, the support of education, and the alleviation of poverty.

Charitable Giving with Life Insurance

By Jeffrey M. Orth, ChFC, CASL

Charitable giving can play a unique and invaluable role in your estate and financial planning, while making a lasting impact on a charitable organization like Rotary. There is a broad array of charitable planning techniques that can be matched to your particular circumstances and objectives. This article will focus on the versatile role that life insurance can play in helping you with your philanthropic objectives.

Here are a number of ideas:

1. **Change the beneficiary on an existing policy to a charity** – As the owner of a life insurance policy, you may name one or more charities as the beneficiary to the proceeds when you pass away. You remain the policy owner and as such, retain access to and control of your policy. You may still change the beneficiary at any time. While you will not receive a charitable income tax deduction for your premium payments, your estate will receive an unlimited charitable estate tax deduction for any proceeds that pass to a charity.
2. **Gift the ownership of an existing policy to a charity** – If you have a policy that you no longer need, consider gifting it to your favorite charity. With a large enough estate, this action could reduce your estate tax liability. Your gift will be entirely sheltered with an unlimited charitable gift tax deduction and will not be subject to gift tax. In addition, you will receive a charitable income tax deduction (subject to limitations) for the value of your policy gift, and for the premiums paid as gifts to the charity.
3. **Pay for a new policy on your life for the benefit of a charity** – A charity that has an insurable interest in you may be interested in applying for a policy on your life. Your gifts of cash or property will enable the charity to make premium payments and will generate a current charitable income tax deduction for you (subject to limitations). Your premium will not be subject to gift tax and the proceeds will be excluded from your estate. The difference between the aggregate premium paid and the death benefit creates leverage in your giving to the charity, enabling you to give more.
4. **Fund a life insurance policy on another family member for the benefit of a charity** – Even if you are not insurable, someone else in your family (in whom the charity has an insurable interest) may be willing to be insured for the benefit of a charity.
5. **Purchase a life insurance policy to replace an asset gifted to a charity during your lifetime.** – If the goal is to prevent a reduction in your family's inheritance as a result of a charitable bequest, a properly structured wealth replacement life insurance policy will ensure an income tax- and estate tax-free legacy for your family. This policy is there to replace the value of the asset that was given to the charity.
6. **Gift or bequeath a highly taxable asset to charity and replace it's value with life insurance** - Your charitable gift or bequest may include highly appreciated assets with substantial capital gains (e.g., marketable stocks and securities), or assets that are subject to significant ordinary income tax upon your death (e.g., qualified retirement plans, IRAs, tax-deferred annuities). A charity can receive, dispose of, or reposition these assets free of tax. The value of these assets can be replaced with a properly structured life insurance policy for the benefit of your heirs, representing an income and estate tax free legacy.

Continues on next page

7. **Acquire life insurance to replace the value of an asset placed in a Charitable Remainder Trust (CRT).** - A properly structured life insurance policy can provide an income tax free and estate tax free legacy for your heirs, replacing the value of the charity's remainder interest in the CRT. You can apply the enhanced income you receive from the CRT, along with the tax savings generated by your contributions to the CRT, to fund the policy premiums.
8. **Acquire life insurance to replace the value of charity's income interest under your Charitable Lead Trust ("CLT").** - The charity, as the income beneficiary of the CLT, can be the owner and beneficiary of a life insurance policy insuring your life. The charity can apply the income it receives from the CLT to policy premiums, to receive an amplified legacy from the policy proceeds. A separate policy can provide a legacy for your heirs, the remainder beneficiaries of the CLT, to replace the value of the charity income interest.

Life insurance is often such an efficient legacy giving tool that it is difficult to limit examples of its versatility to just these eight. The intricacies and nuances of estate planning can be complex, so If you want to talk about the possibility of making a major gift or a legacy gift, we have some people in our District or at R.I. (e.g., our Zone 26 Major Gifts Officer, Beth Garrow; beth.garrow@rotary.org) that would be happy to discuss your options for effective giving.

**Good
News**

On August 21st of this year, the World Health Organization reported that Nigeria has gone three years without a case of wild virus polio. The African continent's last case of polio caused by the wild virus was detected on August 21, 2016, in Nigeria. As recently as 2012, Nigeria accounted for more than half of all polio cases worldwide, according to WHO.

To begin the process of certifying Africa polio-free, a team of independent scientists will examine data from Nigeria and 46 countries to look for a sign of overlooked cases or a gap in surveillance. For more information, and to read WHO's press release announcing the good news, just click [here](#).

**END
POLIO
NOW**

An Update from our District PolioPlus Chair

According to the World Health Organization, since October 2016, Afghanistan and Pakistan have been the only countries with reported cases of wild poliovirus type 1. WHO also reports:

Jim Bell

“[I]n Afghanistan . . . during May–December 2018, insurgent groups banned house-to-house vaccination in most southern and southeastern provinces, leaving approximately 1 million children inaccessible to oral poliovirus vaccine administration. During January–April 2019, vaccination targeting children at designated community sites was permitted; however, at the end of April 2019, vaccination campaigns were banned nationally. . . Continued discussion with antigovernment elements to resume house-to-house campaigns is important to achieving polio eradication in Afghanistan. To increase community support for vaccination, collaboration among humanitarian service agencies to address other urgent health and basic needs is critical.”

“Summary

What is already known about this topic?

Wild poliovirus circulation continues in Afghanistan.

What is added by this report?

With bans on house-to-house vaccination campaigns in many provinces since May 2018 and a nationwide ban since April 2019, wild poliovirus circulation has increased during 2018–2019.

What are the implications for public health practice?

Routine immunization systems, which are critically weak in the provinces where wild poliovirus is currently circulating, are vital to polio eradication efforts, particularly until bans on campaigns are lifted. Successful discussions with local leaders have facilitated house-to-house campaigns in the past, and such campaigns are essential to interrupting wild poliovirus virus transmission.”

Monthly Contribution Report
