

Corporate Membership

Corporate Social Responsibility + High Level Networking = Rotary

The scale and nature of many of the community projects undertaken by the Rotary Club of Perth - in WA and overseas - provides a natural synergy for Rotary and corporate members.

Progressive businesses recognise that community engagement is fundamental to developing links with stakeholders and widening the experience of management. The tricky part is aligning the management team with projects that are worthy of their skills and where, with the limited time available, they may make a real difference.

With that in mind, the Rotary Club of Perth is looking to foster greater links with WA business by developing corporate membership to satisfy this need.

The benefits of Rotary Club of Perth Corporate Membership include:

- Wider community engagement and recognition
- Corporate social responsibility projects
- Flexible participation – nominated members may change as business demands
- Leadership development
- Networking – attendance at Rotary meetings, social events and project team meetings
- Opportunity to visit other Rotary clubs worldwide when travelling and develop international networks of business leaders in partner countries

The Rotary Club of Perth has an impressive history of getting things done and improving lives through dedicated community service. We have a wide range of projects and programmes in progress. We can also offer the opportunity to set up a project that your business can drive and build a real sense of corporate social responsibility for your team, with the support of an organisation that has the community links and know how.
