

Rotary District 5170 Youth Exchange

Student Provided Potential Host Family Information

To facilitate a successful exchange experience for students, Rotary District 5170 needs to have assistance from its outbound exchange students in the effort to locate potential qualified host families in the school district from which they will be departing. The family of the student is NOT required to host an inbound exchange student but may do so if they wish – provided that they meet the necessary requirements mandated by the policies of the Department of State and Rotary.

Potential Exchange Students should talk to their friends and neighbors about being a host family and share with them the information regarding the Host Family Role expectations for families who wish to host a foreign exchange student.

The list below should be comprised of people that have indicated that they have a genuine interest in hosting a foreign exchange student for a few months during the 2013-2014 school year and have reviewed the Host Family Role information.

Student Name / Sponsor Club _____

Host Family Member Name(s): _____
