

World Community Service Award

International Project

Sponsored by Denver Mile High

Visionaria – Boulder New Generations Satellite of Boulder

Each year Denver Mile High Rotary annually selects an outstanding World Community Service Project sponsored by a Club in the District.

This year's honoree for the best international project is the New Generations Satellite club of Boulder Rotary.

The Boulder New Generations Rotary Club has created the Visionaria-Peru project entering its third Global Grant Cycle. The project empowers young, indigenous women in their pursuit of self-envisioned social and environmental change within their communities.

Thank you Boulder New Generations for your outstanding International Service!
