

Visioning and Planning Committee Report

We had a great visioning event at the Kennebunkport club and two other clubs are preparing to be re-visioned. Although some clubs do not create a full blown three-year plan, they all seem to get a lot of direction from the visioning process, and it always seems to stimulate excitement.

Results were tabulated for the second District Visioning Event, held in Portsmouth. The committee is planning for the third District Visioning Jan 17 in Topsham. The committee created several suggestions to assist the DG leadership team as they move the process forward, using the results of the three District Visioning events to create a long-term plan for the District.

We are beginning to plan for our spring workshop, and District Assembly if we are asked.
