AW

Hi All,

Yes we are still working Club Vision Events.

1. I made a follow up presentation at **Kennebunk** a few weeks ago and we have a team headed there next Thursday evening, led by Dick, for a full blown event. Dick made the first presentation, which is a pre-event requirement to let the Club know what they are committing to. It includes part two "development of the long term plan, or rework of an existing one.
2. This week, I made a presentation at **Kennebunkport's** regular meeting and we are tentatively scheduled for a full vision event on Dec. 8th.
3. I am rescheduling the same presentation at **Oxford Hills** for late November, early December with an event date in January. It will not be the week of Dist Vision event 3.
4. **Saco Bay** is still mulling around its options, but will probably go in Q1, 2017.
5. **Scarborough is considering.**

The first 3 are all doing their second vision event.

Tony
