ROTARIANS  
"MAKE A  
DIFFERENCE"

Greetings from our RI President

Kalyan Banerjee and Binota  
Rotary International President 2011-2012

**Reach Within to Embrace Humanity**

Dear District Conference Guests and Fellow Rotarians,

Binota and I are pleased to extend our greetings and very best wishes to you as you participate in this 2011-12 district conference. We wish we could share in each of the more than 500 conferences around the world this year, but that is just not possible. However, with the able leadership of your governor and the district conference committee, we are confident that this will be a very special and memorable experience for you.

The district conference is a wonderful tradition and a great opportunity to share information and learn about the projects and activities of other Rotarians in your district and around the world. While our clubs are the heart of Rotary, it is at the district conferences where club members can become even more aware of the ways in which Rotary is making the world a better place.

When Binota and I began our life of service through my local Rotary club, we had no idea where our desire to serve would lead us. It is the same for all Rotarians, as none of us knows where service will lead. Rotary has accomplished so much, yet the world needs us more today than ever. I encourage you to renew your dedication to your clubs, your district and Rotary -- to **Reach Within to Embrace Humanity.**

At the International Assembly I said, "In order to achieve anything in this world, a person has to use all the resources he can draw on. And the only place to start is with ourselves and within ourselves." As you participate in your district conference, I ask you to remember why you chose Rotary and let service to others continue to motivate you.

We wish you an informative, inspirational, fruitful and enjoyable district conference.

Best regards,

Kalyan Banerjee  
President, Rotary International, 2011-2012

### Parable of the Starfish--Making a Difference

One day an old man was walking along the beach. It was low tide, and the sand was littered with thousands of stranded starfish that the water had carried in and then left behind.

The man began walking very carefully so as not to step on any of the beautiful creatures. Since the animals still seemed to be alive, he considered picking some of them up and putting them back in the water, where they could resume their lives.

The man knew the starfish would die if left on the beach's dry sand but he reasoned that he could not possibly help them all, so he chose to do nothing and continued walking.

Soon afterward, the man came upon a small child on the beach who was frantically throwing one starfish after another back into the sea. The old man stopped and asked the child, "What are you doing?"

"I'm saving the starfish," the child replied.

"Why waste your time?... There are so many you can't save them all so why does it matter?", asked the man.

Without hesitation, the child picked up another starfish and tossed the starfish back into the water... "It matters to this one," the child said.

*So.....the next time you think about not doing something, or not speaking out, because you believe it won't change anything, consider doing it anyway.*

*It will make a difference to someone!*

**Friends Forever: Creating World Peace with the Next-Generation**

Friends Forever promotes trust and understanding among cultures in conflict on both local and international levels. With over 1,000 graduates from Northern Ireland and Israel as well as a growing Domestic Immigrant Integration initiative that involves youth from the Sudan, Congo, Dominican Republic, and Albania - Friends Forever does not believe there is one set path to peace, but rather that the number of solutions to conflicts in the world today equals the number of individuals that participate in our program. Our mission is accomplished through original and powerful group programs that are carried out in phases both in the U.S. and abroad. Through these

unique trust-building processes, Friends Forever erodes the fear and mistrust that divide cultures in conflict to create enduring cross-community friendships.

Since 1986 we have worked with over 1,000 youth from Northern Ireland, 150 youth from the Middle East, and are now working with diverse populations and immigrants from US communities. We accomplish this by leveraging the skills, resources, and enthusiasm of individuals and communities across the globe. When it comes to world peace, there is a place for everyone....right here!
