

Kaitlyn Green Raises Money for the Farmers

Young Kaitlyn Green during her last school holidays was busy raising money in her home town of Nowra for NSW drought victims. A total of \$117 was raised by collecting bottles and cans.

Kaitlyn's inspiration came from watching the Sunrise television news broadcast showing the plight of farmers suffering from the effects of prolonged drought and a call to the general community to help in any way they could.

Recently, Kaitlin and her mum met with Bomaderry Rotarian Verne Mutton to hand over the proceeds of Kaitlyn's wonderful enterprise to add to the second round of funds the Bomaderry Rotarians had already raised for drought funding.

This is a sterling effort by a young lady whose sole wish is to raise funds to assist people requiring support and help through no fault of their own. Kaitlin is now continuing with her efforts to raise funds for the needy.

Well done Kaitlin!!
