

The Rotary Club of Centurion held a Christmas function for about 30 children at the 'We Learn' Pre-school in Olievenhoutbosch township at the end of November last year.

All of the children were given soft toys, most of them knitted by two groups of ladies with whom the club interacts on a regular basis.

Seven of the children who start school this year also received a backpack with stationary items and certificates.

Kim Fisher of 'Golden Pockets', Halfway House provided a very generous cash donation and a sumptuous lunch.

The children, under the guidance of Priscilla who runs the creche, prepared songs and dances for us. It was a happy day after months of lockdown and social isolation due to Covid-19.

The Golden Pockets contribution as well as the proceeds from raffle ticket sales at a wine tasting in October 2020 allowed the club to organise a memorable day for the children.

The Rotary Club of Centurion Anns donated home-made play dough as well. In addition, the club was able to purchase a nice, solid second-hand Ikea bed for the sick bay, a requirement to be compliant with the Department of Health regulations. Some funds are still left-over and the club will purchase a first-aid kit and much needed little chairs and tables.
