

RC Northcliff

On Wednesday 19 August, Rotary Club Northcliff donated a fridge and freezer, facilitated by a District 9400 Grant, to Potter's Nursery School.

Potter's Nursery School (PNS) was born of the vision of a missionary & pastoral couple, Pastor Tiras & Salome Magolo, whose mission is to "train up a child in the way he should go and when he is old, he will not depart from it" (Proverbs 22:6).

From its origin, the goal has been to provide quality education in a Christian context for the local lower income community.

School	Classes	Group	Total Students
Baby & Toddlers	Noah	6-34 Months	6
Nursery	Moses	2-3 years	3
Pre -Scholars	Daniel	3 years	9
Grade 00	Joseph	4 Years	19
Grade R	King David	5 Years Only	35
Total in school			72

It is excellently run and very impressive. While they battle to collect fees in some instances, parents seem very committed and it seems to have a great reputation. They have some 72 students in total and have arrangements with other schools for overflow.

Rotary Northcliff is also attending to some repairs to the geyser and some plumbing.

In addition, Mila Cleaning through DG Annemarie have kindly agreed to sanitise and defog in anticipation of receiving students on Tuesday 25th.
