

100 years of Rotary in Africa

24 & 25 April 2021

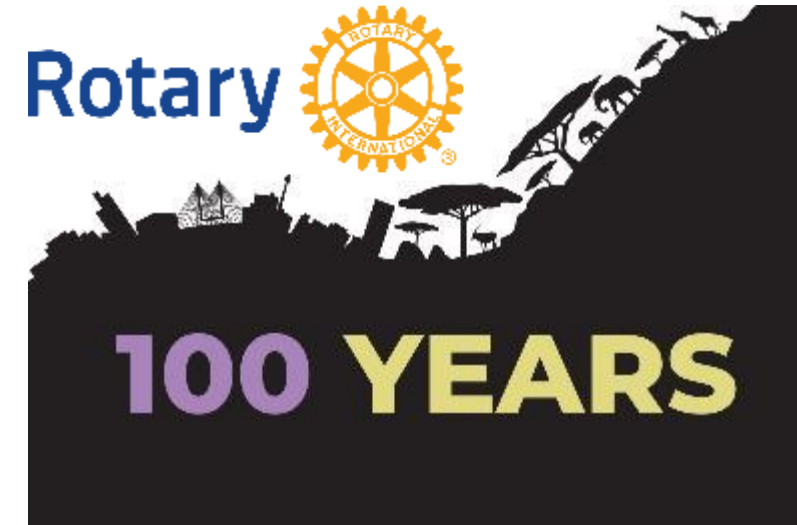

Virtual Event

Let's join forces to tell our collective story of community development & building the infrastructure of African philanthropic networks through substantial investments in our continent.

History in the making

- In 2021, Rotary celebrates a century since it was first established in Africa. The centennial will congregate Rotarians and non-Rotarians from around the world digitally.
- Rotary International is a world fellowship of business and professional people all bonded together in Rotary Clubs by the common purpose of "**Service above Self**".
- With 1.22 million Rotary members world-wide, Rotary International is a force to be reckoned with. It has more than 35 000 clubs in over 200 countries.
- The RC of Johannesburg was chartered in 1921 as the first Rotary Club in Africa.
- Africa: 1 Zone, 16 Districts, 53 Countries, over 35 000 Rotarians...

Focus Areas

Our focus areas not only speak to the United Nations Sustainable Development Goals (SDG), but also help Rotary to build international relationships, bring change in our communities and ourselves, improve lives, support our peace efforts and eradicate polio forever.

Rotary is dedicated to seven areas of focus:

- 🏠 **Basic education and literacy**
- 🏠 **Peacebuilding and conflict prevention**
- 🏠 **Disease prevention and treatment**
- 🏠 **Water, sanitation and hygiene**
- 🏠 **Maternal and child health**
- 🏠 **Community economic development**
- 🏠 **Protecting the Environment**

Our Successes

POLIO ERADICATION - THE FINAL DRIVE TO A POLIO FREE WORLD

- Rotary launched the '**End Polio Now**' global campaign in 1985 and has since vaccinated more than 4.5 billion children worldwide.
- The End Polio Now programme provides funding for vaccine and transportation for mass immunization campaigns as well as support for social mobilisation, surveillance, and laboratories to help carry out the final stages of global polio eradication.
- Less than 176 polio cases have been reported so far since 2019/20.
- The World Health Organisation made a historic announcement on 25 August 2020 when they certified Africa as free from the Wild Polio Virus. This was "a public health triumph for Africa" said Bill Gates.
- This very infrastructure, created over 35 years by Rotary International and our partners, will also serve as the infrastructure to deliver the COVID-19 vaccine, once available.
