The Rotary Youth Exchange long-term travel program is our flagship study abroad program for young people ages 15 – 19. The experience begins the year before going to study abroad, beginning with the application, selection and preparation processes.

During your academic year abroad, you will live with as many as three host families, study at a local high school, and become proficient in a new language. Rotary Youth Exchange is an immersion program that will help you to become bicultural and bilingual, and forever change your perspective of the world we live in.

"You will never be completely at home again, because part of your heart will always be elsewhere."

PROGRAM OBJECTIVES

Instill international understanding and goodwill in students
