**data or survey results**

The project will address the need of flush-toilet, urinals and safe drinking water for girls at schools. The schools having No Toilets / Dry Toilets / Wet-toilets / damaged condition toilets shall be identified by local sponsoring Rotary clubs. Rotary Club will approach the management of such identified school to offer the facility and will select finally if the school management agrees to (1) accept the offer in writing, (2) provide space for construction, (3) cooperate in students safety during construction work, (4) cooperate with construction team and finally (5) undertake in writing to maintain the facility good for use.

**Detail how your project will address these community needs.**

Students, specially the girls, need private area for their natural needs otherwise they don't attend school regularly and full time. Dry-Toilets/damaged toilets and/or short supply of water support spreading communicable diseases and contaminated drinking water causes various water born diseases. Providing the facility to the students will help them attend school full time and in disease prevention. Our toilet blocks will regular water supply from overhead tank and the tank will be connected with submersible pump for deriving the groundwater with deep bore well (150 Ft. deep). This water will be safe and need no treatment. We can not depend upon municipal water supply since its not available at all the project sites and if available, its irregular.

**How were members of the local community involved in planning the project? Does your project align with any current or ongoing local initiatives?**

Since Prime Minister of India has started a campaign of sanitation and cleanliness all over the country, people are aware to have such facility. Government is supporting financially to government institutions and individual house holds. Rotary will support such schools of Govt/private sector who are not getting government's financial support and can not afford financially to construct a proper toilet block. Members of school management committee from the local community are involved in planning the project.

**Describe any training, community outreach, or educational programs, if applicable, and who will conduct them. How will recipients be selected?**

All the students, teachers and staff members of beneficiary school will be educated about the benefits of use of the provided facility and will be trained to use the facility properly, to wash the hands properly with soap & water. This training will be given by medical practitioners / community health experts arranged by Rotary club along with Handover ceremony. Local dignitaries and media friends will also be invited to this ceremony. The project will reach to the community through beneficiary students and local news papers.

**Areas of Focus****Water and sanitation****Which goals will your activity support?**

Providing equitable community access to safe water, improved sanitation and hygiene

**How will you meet these goals?**

The project will provide Toilet block along with drinking water from deep bore well to the girls students in 10 schools in Agra and nearby districts.

**How will you measure your impact?**

No.	Measure	Measurement Method	Measurement Schedule	Target
1:	Number of people with access to improved sanitation facilities	Grant records and reports	Every year	2500+

**Who will be responsible for collecting information for monitoring and evaluation?**

Officers of local sponsoring Rotary clubs will be responsible for collecting information of female students

**SUSTAINABILITY**

**Describe the process for selecting these budget items. Do you plan to purchase any items from local vendors? Have you performed a competitive bidding process to select vendors? Do these budget items align with the local culture and technology standards?**

The budget prices are estimated by qualified architect on the basis of design provided and rates approved by State Government's Public Works Department. Hence, there is no need of competitive bidding process to select vendors. These budget items align with the local culture and technology standards. Moreover, quality can not be maintained in competitive bidding process.

**How will the beneficiaries maintain these items? If applicable, confirm that spare or replacement parts are readily available and that the beneficiaries possess the skills to operate equipment.**

Some of the beneficiary students may have flush-toilet at their homes but we will organize training to all the beneficiary girls students to use and maintain. All the spare and replacement parts are readily available in local open market. Beneficiaries can easily operate the provided facility and need no specific skills.

**Who will own the items purchased with grant funds at the end of the project, including equipment, assets, and materials? Note that items cannot be owned by a Rotary club or Rotarian.**

The items purchased with grant funds including building, equipment, assets and materials will be owned by beneficiary school after handing over the complete complete project. The school management shall give in writing and shall be responsible to maintain the project facility in good condition to use at their own cost.

**FINANCING**

The Rotary Foundation funds global grants from the World Fund, and awards range from US\$15,000 to US\$200,000. The Foundation matches cash contributions at 50 percent and District Designated Fund (DDF) contributions at 100 percent. The Foundation will also match non-Rotarian contributions toward a grant, provided they do not come from a cooperating organization or a beneficiary.

To determine the World Fund match for your global grant, list all sources of funding, specifying contributions from cash, DDF, and other sources. Non Rotarian contributions with no match from TRF can be included in the grant financing if they are being used to purchase grant budget items. These contributions should not be sent to TRF. Note that the total financing must be equal to the total budget of your activity.

**\*NOTE:** Any grant cash contributions sent to TRF must include an additional 5% to support processing expenses.

After you have added all funding sources and the requested World Fund match, click "Save" to save your grant financing.

#	Funding Method	Organization	Amount (USD)

**SUSTAINABILITY**

**Have you identified a local funding source to ensure long-term project outcomes? Will you introduce practices to help generate income for ongoing project funding?**

Local funding source to ensure long-term project outcomes has been ensured by taking written undertaking from beneficiary school management and the management can easily afford the maintenance cost. Income can not be generated from the project since the facility is being provided to students in schools.
