

URGENT APPEAL

Haiti Cyclone Matthew response effort building now

Image from AP

Cyclone Matthew has left more than 1000 people confirmed dead in Haiti already one of the poorest countries in the world and now facing cholera outbreaks from contaminated water.

Disaster Aid has deployed in Haiti before, and is working with fellow Rotarians there to provide an appropriate emergency shelter and fresh water response.

At this time, there are no flights into Haiti, making assesment and provision of aid extremely difficult. Disaster Aid has Response Teams on standby for immediate deployment as soon as flights resume.

Your donation will help Disaster Aid International (USA) respond with Family Survival Packs, Home Repair Kits and, most importantly SkyHydrant™ water purification systems and Sawyer water filters.
