DOESN'T EVERYONE DESERVE TO HAVE ACCESS TO CLEAN WATER?

Should everyone have access to clean drinking water? What about water for cooking meals or bathing or DRINKING? This is something most of us take for granted. We know it will always be there.

But this is not the case in many parts of the world. Women and children can spend more than four or five hours, each day, walking to get water. And, in many cases this is water from the local river. More than 800,000 people die each day from diseases contracted from drinking unsafe water. *We can't change the whole world but we can change the world for one small part of it.* I ask your club to be part of this district wide effort to raise funds for HANWASH and know that you have made a difference in someone's life. PLEASE SAY YES!
