1. Open your Google Chrome browser
2. Go to www.NetflixParty.com
3. Click the install button in the upper right
4. On the next page click blue button to install
5. In the pop up message click to add extension

You should now see a little icon in the upper right of your browser that looks like this:

Joining The Party

2. Copy and paste the link into your Google Chrome Browser
3. Click the NP icon in the upper right of the browser to start the party

Additional Information

- If you don't usually use Google Chrome as your web browser, or you just downloaded it for this purpose, it will not be your default browser. That is why it is important for you to copy and paste the Netflix Party link into Chrome directly. The party will not work the right way in other browsers.
- If you open the link to the party in the wrong browser, the movie will play, but you won't be with the party. You won't be watching at the exact same time as the rest of us and you won't have the chat feature.
- If you don't see the chat feature on the right side of the screen, you are not in the party.
- If you have tech troubles and just want to watch the movie without technically being in the party, go for it!
- When in the chat feature, click on the little circle icon in the upper right to add your name so we all know who we are talking to. You can change your icon too - they are just silly things like candy, cookies and faces.
- The movie is scheduled for 8pm and will typically start playing by 8:05pm to give people time to log on and say hello.
- Chatting during the movie is permitted (and encouraged).
- Feel free to share the opportunity to join us with any friends or family you think would enjoy the experience. It is not limited to Rotarians.
- Send your movie ideas to Lizzy at emartin@advancemediany.com
