JACK R. ARNEY
District Governor
RI District 5180
USA

Dear Classmate District Governor Jack,

I am District Governor Pastor "Mar" Reyes Jr. from RI District 3780, Quezon City, Philippines.

I hope this email finds you in good health and your District in a good start in our year of service.

In line with RI Pres. Barry Rassin's call for us to do more this Rotary Year, and to make use of our District Designated Fund, I would like to offer your clubs to partner with some of our clubs to jointly undertake international service projects, or, we could do it via District to District International Service Project, through Global Grants Application.

Here are some proposed projects that we would like to partner with you as international partner: (please see the attachments for more details)

1. Cooking for Life -

Proposed by Rotary Club of Sto. Domingo, Club ID # 22006, Club President Jose Artemon Luna.

Rotary Causes: Supporting Education, Promoting Peace and Growing Local Economies.

This Project provides a holistic education to indigent young men and women to acquire culinary skills for employment as chefs or cooking staffs in local and international food industry.

2. Livelihood for abused women and children

Proposed by Rotary Club of Cubao Metro Aurora, Club ID# 87457, Club President Mildred Fragante.

Rotary Causes: Promoting Peace, Supporting Education and Growing Local Economies

The project calls for the renovation, purchase and installation of cooking equipment in an institution for abused women and girls called Marillac Hills, a government run institution badly in need of assistance from the private sector.

Abused women and girls are housed in the institution which provides education, and with the proposed project, giving them the necessary cooking skills and providing them dignity and confidence in preparation for their eventual release from the institution.

3. Deepwell Project for Aetas in the Provinces of Tarlac, Pampanga and Zambales

Proposed by RC Batasan Hills, Club ID#31159, Club President Yolanda Brondial

Rotary Cause: Providing Clean Water

This is a WASH project intended to provide tribal/indigenous communities in the Philippines with basic water and sanitation

4. Pre and Post-Operative Vehicle

A project proposed by three (3) Clubs:

RC Pearl of the Orient , Club ID#76330 , Club President Edgardo Nicolas

RC New Manila Heights, Club ID#21939, Club President Paul Castro

RC San Francisco Del Monte, Club ID# 16921, Club President Percy Aranas

Rotary Causes: Fighting Diseases, Supporting Education and Growing Local Economies.

This project involves the purchase of a pre and post-operative bus for the use of RC San Francisco del Monte's "Hospital on Wheels".

The free surgeries that the "Hospital on Wheels" gives will enhance and improve the efficiency of hospital services with the addition of the bus.

5. Apheresis Machine- Blood Screening for children with rare diseases

Proposed by RC San Francisco Del Monte, Club ID# 16921, Club President Percy Aranas

Rotary Causes - Fighting Diseases and Saving Mothers and Children.

This project involves the purchase and donation of an Apheresis Machine to a hospital in Quezon City, which screens blood especially of children with rare diseases, and with early detection through low screening costs, the afflicted children can literally increase the chances of survival. Many poor indigent children will benefit.

Thank you very much and we look forward to working jointly with your District..

Yours in Rotary,

Pastor "Mar" Reyes, Jr.
District Governor - RY 2018-2019
RI D3780
Quezon City, Philippines

Rotary
Club of San Francisco Del Monte

District 3780
Quezon City
Philippines
