District 9211

Tanzania &
Uganda

95th District Conference and Assembly

24 - 25 June, 2020

The main problems facing agricultural development in Turkana:

- Harsh environmental conditions.
- The lack of know-how in developing agriculture in arid land.
- Difficulty to bring expert agronomists and skilled manpower to the area on a long term basis.
- The deep cultural gap between the herders way of life and farming way of life
- The lack of transportation infrastructure and access to markets
