

# The “HANDS ON AWARD”

1) The role of Club President is the most important job in Rotary. You have that job, that role, that position. The “Hands On Award” is to help you focus on what is important for you in your year as President. Goals that are written are far more effective in being attained, and personal satisfaction is a wonderful reward. The “Hands On Award” is designed to help you achieve your goals and reward yourself.

2) You identify **2-5 goals**, related to Rotary, that you personally have for your year. You put your goals in writing and share them with me. You choose the number of goals.

3) We’ll talk about them in person, over the phone, by Zoom – and you and I will agree on what your goals are.

4) You sign and date this form, I sign and date this form – and you start your efforts.

Before our District Conference in May 2025? Report to me if you met your goals. Your decision, and it’s final. If you met your goals? You receive the award. If not? No penalty at all, you just don’t receive the recognition at our District Conference.
