

GRANT OPTIONS TO RESPOND TO COVID-19

As people of action, Rotary members want to find ways to respond to COVID-19, which is now a global pandemic, and to help people affected by it. The Rotary Foundation offers several options that Rotarians can use to help care for and protect people in their own communities and others around the world.

District grants

Districts can use [district grant](#) funds to support local activities, like purchasing thermometers, protective medical gear, or other items to donate to medical professionals who need them. Districts can also use contingency funds from an open district grant or repurpose previously planned activities as a COVID-19 response.

As districts prepare to submit new district grant applications for 2020-21, we encourage you to designate funds for COVID-19 responses. As a one-time exception, the Foundation will allow expenses related to COVID-19 that were incurred since 15 March 2020 to be reimbursed through 2020-21 district grants.

Disaster response grants and the Rotary Disaster Response Fund

Rotary's [disaster response grants](#) provide a fast and effective way to respond to local events. The Rotary Foundation recently added COVID-19 projects to its list of eligible activities for these grants. Each district can apply for one grant (of up to \$25,000) to address COVID-19, depending on the availability funds.

Disaster response grants are funded by the [Rotary Disaster Response Fund](#) to help districts around the world respond to disasters. The fund accepts online contributions and DDF. Districts may designate that their DDF contributions to the Disaster Response Fund be used exclusively for COVID-19 grant activities. Cash contributions will be used for general disaster response, including response to COVID-19.

Global grants

[Global grants](#) remain an excellent way to make a transformative impact in a community. If medical equipment is needed in order to respond effectively to COVID-19, global grants can help pay for these items. The Foundation is waiving the 30 percent foreign financing requirement for any new global grant that addresses COVID-19. Note that these grants still require both a host and international partner.

For additional information, contact your [regional grants officer](#).
