

**ROTARY:
MAKING A
DIFFERENCE**

August 2017

Hello my great Public Image group,

While sorting through a lot of videos for my own club to use during our meetings I thought that it would be good to share what is available through both Vimeo and YouTube for you all to use.

These are also available through the www.rotary.org site but I have found it much faster to google Vimeo or YouTube and put in Rotary International.

Here is a list of some of the videos that you might like to look at and use as a resource to share with the clubs in your Districts.

VIMEO

Because of You / A Century of Doing Good / How Rotary is Funding Polio in 2017 / They Won't Give Up / Water is a Gift / Stand Up and Be Counted – Thank you / Give the Gift – Disease prevention / Give the Gift – Water / Give the Gift – Rotary / World Water Day / Rotary Smiles / TO Walk with Pride / Shelter For Peace / Join the Fight to End Polio.

These are all recently made within the last 18 months up to the last 3 months so we can be current. All of them are short between 2- 6 mins so are a good fill in for any meeting or can be incorporated into any presentation that you may be asked to give.

YOUTUBE

What is Rotary / Rotary – Make a World of Difference / Rotary Foundation Basics – A Foundation for the Future (a learning type video which could be useful) Rotary Doing Good in the World – San Bruno / DO Good with Us – The Rotary Foundation / We Are People of Action – Rotary / One Small Act – A VR Experience (great one for people to see a Vaccination day in action) / Drop to Zero.

I hope that this will make Rotary come alive if we can use any of these in our presentations.

Please share any ideas that you may have come across.

Kind regards

Liz Courtney
Rotary PI Coordinator
