Engagement and Marketing Chair

# ROTARY GIVE EVERY CHILD A FUTURE

## Our Centenary project

South Pacific President Elect Training

29 February 2020

*Give Every Child A Future - Our Australasian Centenary Project*

*Give Every Child A Future - Our Australasian Centenary Project*

## **Prevent cervical cancer and reduce child mortality in the Pacific**

This visionary project celebrates Rotary's centenary in Australia, New Zealand and the South Pacific.

Working with UNICEF, we are introducing three new vaccines across nine countries. Saving lives for generations.

# Nine Countries

*Give Every Child A Future - Our Australasian Centenary Project*

*\*Support in Kiribati for rotavirus vaccination only initially*

# Three vaccines

To protect against

- Rotavirus: a common viral, severe and sometimes life-threatening diarrhoea
- Pneumococcal disease: a major cause of meningitis, pneumonia and life-threatening septicemia
- Human papillomavirus (HPV) the cause of cervical and other cancers

# Cervical cancer: a scourge in the Pacific

*Give Every Child A Future - Our Australasian Centenary Project*

- Incidence and mortality are far higher than in Australia and New Zealand
- Cervical screening is rare
- Treatment is often unavailable

In addition:

- Women place a vital role in households and communities

# Rotary's areas of focus

*Give Every Child A Future - Our Australasian Centenary Project*

Saving mothers and children

Fighting disease

# Rotary involvement

*Give Every Child A Future - Our Australasian Centenary Project*
