WHAT WE DO

FREE FLIGHTS FOR RURAL AUSTRALIANS

Angel Flight Australia is a charity that coordinates non-emergency flights to help rural people dealing with the triple trouble of bad health, poor finances and daunting distance. All flights are **FREE** and may involve patients travelling to medical facilities anywhere in Australia. **Angel Flight is solely funded by private donations from individuals, clubs, companies, and deceased estates.**

Our pilots do not carry aeromedical staff or medical equipment so do not act as an alternative to the Air Ambulance services, however we will fly you back home from emergency trips.

WHO WE HELP

We help people of all ages needing medical treatment at destinations where other forms of transport are physically and emotionally taxing or unaffordable.

However in keeping with our philosophy, *"help where help is needed"*, over the past few years we have identified other ways we can help. We reunited loved ones during COVID and have delivered vital supplies to communities impacted by natural disasters. More recently we have begun to support the Starlight Foundation's Make a Wish and have partnered with BushKids, HeartKids and Macquarie Home Stay, Dubbo.

HOW TO MAKE A FLIGHT REQUEST

HEALTH PROFESSIONAL REFERS A PATIENT

1

Health professional registers as an Angel Flight referrer and completes a simple online process.

ANGEL FLIGHT COORDINATES PILOT AND DRIVER

2

Our team put out a call to Angel Flight volunteer pilots and drivers to coordinate the flight and transfer from airport to medical facility.

PASSENGER ARRIVES AT MEDICAL APPOINTMENT

3

Our drivers aka Earth Angels, meet the passenger at the airport to transfer the person and their carer to their medical appointment.

RURAL MEDI-FLIGHTS

✓ TAKING HEALTH PROFESSIONALS TO THE BUSH AND BEYOND

From 2021-2022 Angel Flight saw a 30% increase in demand for its core service of free patient flights, however the demand for health professional flights increased by 80% with numbers continuing to climb. Angel Flight's increasingly busy service transporting not only people needing treatment, to larger cities, but also providing increased transport for health professionals to rural and remote hospitals and clinics, confirms the very need for the new **Rural Medi-Flights service**.

Taking its first flight in February 2024 the aircraft's home base is in **Archerfield, Brisbane**. This aircraft's primary purpose, under airline safety standards, will be to transport health professionals to rural and remote communities throughout **Queensland**. Our plans for expansion will continue our national operation with a dedicated aircraft in each capital city, Cairns and Port Hedland.

The medical support 8-10 seat cabin-class twin-engine aircraft, will service health professionals for a small fraction of the cost of larger air ambulance aircraft, allowing health providers to reach more country people more often.

Our aircraft have the ability to land at all country town airfields, and most communities across Australia, with high-speed safe transport, allowing a greater percentage of flights in often changing weather conditions. All flights will carry catering and will be equipped with toilet facilities for the comfort of our passengers.

✓ OUR RURAL MEDI-FLIGHTS PILOTS

- The air services will operate to the highest standards, under the Air Transport Category with appropriate licences.
- The aircraft will be flown by highly experienced airline pilots with Instructor and Check and Training Captain status.
- A highly qualified airline transport pilot has been engaged as safety manager.

✓ HOW TO MAKE A RURAL MEDI-FLIGHTS REQUEST

Health Professionals wishing to travel via Angel Flight's Rural Medi-Flight service must register online with Angel Flight. Once your registration is complete a request can be emailed to mail@angelflight.org.au

Our first aircraft is named 'Kayla' in honour of our passenger who flew with us 400 times but sadly lost her health battle, at age 23.
