**KOALA CHLAMYDIA VACCINE PROJECT**

**Koala populations in Australia are severely declining, and Koalas are now listed as endangered in QLD, NSW, and the ACT.**

**This is due to habitat destruction, domestic animal attacks, bushfires, vehicle strikes and diseases such as Chlamydia.**

**Koala Chlamydia is a bacterial infection and if left untreated, can cause infertility and permanent blindness**

**LETS HELP SAVE OUR KOALS**

**BOOKINGS: rotary-cct-koala-golf-day**
