

RYPEN

Dear School Principals,

RYPEN is a Rotary International youth program held at Camp Bornhoffen in the Gold Coast hinterland. It is intended to assist young people to challenge themselves, extend their boundaries, and develop positive behaviours in a supportive environment. An information sheet is included with this letter.

The RYPEN schedule is a mix of guest-speaker sessions, team-based activities and physical activities. The value of teamwork & the importance of taking part rather than winning is emphasised in all activities; our team establishes an atmosphere of fun where it is hard not to have a great time. The program has been running for a number of years and is held in Rotary districts all across the world.

The program is for fourteen & sixteen years olds who would love a weekend packed with activities, entertaining speakers & opportunities to make new friends. Each participant is sponsored by a Rotary Club.

If you have one or two students who would benefit or who are interested in this program please contact me at the email address below. We will let the Rotary Clubs in your area know and arrange sponsorship through the club.

Kind Regards,
Kathy Smith
