

## **Playgrounds for Sri Lanka Project.**

After a successful project in sending a playground to a girls school in Sri Lanka, The Rotary Club of Flemington have created a “Tsunami” of available playgrounds from all around metro Melbourne and they have issued a “cry for help”.

Their request for a couple of things:-

1 Assistance from Rotary Clubs in proximity to the playgrounds that come available, to arrange their dismantling and delivery to DIK for storage ahead of despatch to Sri Lanka .

This can be in conjunction with other organisations like men’s sheds, scout groups and the like and

2 A couple of interested Rotarian volunteers who would be prepared to assist Peter Cribb – the instigator of the project – and volunteer to do some inspecting playgrounds and coordinating the recoveries.

Whilst the initial focus is on Sri Lanka, we know that there are requests for playgrounds from Timor Leste and Kiribati.

If you have an interest in a really interesting and worthwhile project please give Bob Glindemann on 0418 102 702 a call for more information.
