APPLICATION FOR DISTRICT GRANTS - General Conditions

1. District Grants are designed for relatively small discrete projects where a Global Grant application will not be lodged.
2. Projects must comply with [The Rotary Foundation Terms and Conditions for District Grants](#). Clubs should review these guidelines before submitting a Grant Application to ensure that the project is eligible for grant funding. See:
<https://rotarydistrict9800.org.au/sitepage/district-and-global-grants>
3. Grants must support the mission of The Rotary Foundation, which is to enable Rotarians to advance world understanding, goodwill, and peace through the improvement of health, the support of education, and the alleviation of poverty.

4. Each Club may apply for one District Grant-Local Within Australia (DGL) and one District Grant International (DGI or DGS) between July 1st and December 31st. After January 1st grants will be awarded for qualified projects on a first come first served basis.
5. Each project must be a new and discrete project for the initiating club and for each of the clubs cooperating on a joint project. Grants are not available for projects that are simply a repeat of an earlier project. (Nb. A grant may be available however for a project that is an extension of the scope of an earlier project).
6. If the project is to establish an ongoing program, the application must explain how the program will be sustainable within the community, without relying on further grant funding.
7. Grant approval must be obtained prior to committing project funds.
8. A Rotary club, Rotary entity or a Rotarian MAY NOT be the beneficiary of a Grant e.g. equipment or assets of any type that remain the property of the club or entity will not be funded, except in the most unusual of circumstances as adjudicated by the Grants Committee. Equipment or assets that are acquired for the purposes of a fundraising activity, or where a Rotarian is the beneficiary, are not eligible for grant funding at any time.
9. A cash contribution to a project of another body IS NOT eligible for a matching Grant.
10. District 9800 Grant funding is matched to contributions from District 9800 clubs and D9800 managed programs only. Funds contributed to the project from non-D9800 clubs or other sources will NOT be matched.
11. Contributions by multiple clubs must each be from discrete sources i.e. a single source of funding, if channelled through a number of clubs, will be treated as a single club contribution.
12. Projects must actively engage Rotarians. This could be either, or all, the following: the design and planning, dedicated fundraising, governance or implementation of the project.
13. Grants will be cancelled where:
 - The project is not commenced within 12 months of the date of approval, or where
 - The project is not completed within 24 months of the date of approval.
14. The application must include details regarding how this project will be publicised, internally within Rotary, and importantly, externally to promote the work of Rotary and The Rotary Foundation to the community. **Publicity must include reference to the project being delivered with the support of a district grant from The Rotary Foundation.**
