# District Assembly 2024

The key message:

- there will be some changes,
- for those programs that the district runs, such as RYLA, RYPEN, Youth Exchange, and the Sailing Challenge, there will be no change in the first year other than a potential change in payments.

# District Assembly 2024

Programs which we endorse but don't run, will be liaised directly with clubs and Rotary Communities, not through the district, these are programs such as NYSF, RYDA, Science Experience, etc.

Interact will be moving across to the Regional Council as part of the first tranche of Regionalisation.

# District Assembly 2024

Earlyact will still be supported at the district level.

Limited change in the year ahead:

-clubs are encouraged to engage with youth programs.
