Twilight Cruise on the 'One & All' Tall Ship

Saturday 19th February

BOOKINGS STILL OPEN

BOOK NOW

Cruise Details:

A magical twilight sail for Rotarians and their friends on the 'One and All' Tall Ship, involving a short, picturesque cruise down the Port River and into the Gulf.

Guests will be plied with sumptuous food during the cruise - a pawn cocktail, a grazing box and deserts, plus soft drinks, tea and coffee. Bar purchases will be available separately with wine, beer and 'bubbles'. Students who have taken part in the Rotary Club sponsored 5-day training voyage will be onboard to share their experiences and demonstrate some of their newly acquired skills.

COVID Safe: All crew are double vaccinated . Clean sea air environment.

Location:

Assemble at Dock 2 (2 Honey Street), Port Adelaide at 5:45 pm; for a 6:30 pm to 9:30 pm cruise.

Cost: \$120 pp (plus TryBooking fee)

Contact Details: David Binks Mobile: 0438 221 937 Email: dpbinks@senet.com.au

Speaker: Dr Trudy Lin

Dr Trudy Lin was named the 2022 SA Young Australian of the Year as the youngest of only 20 practicing specialists in Australia's Special Needs Dentistry sector, providing oral healthcare to people with disability, psychiatric illness and complex medical issues such as cancer.

In May 2021, Trudy received Australia's Career Achievement Award and is also the 2021 South Australian Young Achiever of the Year for her contributions to the community outside her profession. During COVID-19, Trudy self-funded and established a Supported Independent Living Facility which provides specialised accommodation for people with disability to live independently in the community.

I know this has been a busy time of the year for Rotarians. But it's also an ideal time of the year to think about suitable applicants for the Rotary Youth Leadership Award to be held

19th - 25th April 2022.

Many of you will have been in social or family situations over the last few weeks that have brought vibrant 18 - 25 year olds into your orbit!

It's given you the ideal opportunity to recommend a participant who you think will make the most of the opportunity to attend RYLA.

Have a chat with them tell them about the program and suggest they look us up online (it's as simple as typing "RYLA 9510") the online application will only take them 5 minutes to complete. If they can't attend in April they can also pre-apply for September 22.

How rewarding to sponsor someone that already has a link to your club. And what better recommendation for their attendance than that of a Rotarian who knows them.

Spread the word about a fantastic youth opportunity through Rotary!

Helen Marshall, Chair, District 9510 RYLA Committee

Ryla@rotary9510.org

The NYSF (National Youth Science Forum) in-person program for Jan 17-21 has been **postponed by NYSF.**

This is the only decision that could be made under the current COVID situation.

The NYSFers of 2022 and their parents have been informed by NYSF HQ

*If you have sponsored a student then they **still will be doing NYSF this year.** Please provide them the opportunity to address your club about their experience. They are getting an interactive 12 day experience which started Tuesday 11th.*

There will be additional virtual experiences during 17 to 21 January instead of the in-person visits. The rescheduled in-person visits will occur when COVID allows.

Email with this information has been sent to Club Presidents and Secretaries.

Rotary Youth Sailing Challenge

Next Sailing Challenge: commences Sunday 24th April for 5 days. Cost \$950

Time to look and identify suitable applicants aged 15 –18 years. There are still some Cooper's Foundation Grants available on this voyage for clubs who have never previously sponsored.

For more information or assistance visit www.youthsailing.com.au or contact David Binks (0438 221 937) or Bill Walsh (0427 396 258)

Check out our video at <https://vimeo.com/601044756>

Application forms will be available shortly.

Rotary Youth Exchange Update

Youth Exchange students often say their experience abroad was the best time of their lives. Being part of the program can be life-changing for Rotary members as well

For more than 40 years, Rotary Youth Exchange has been one of Rotary's best-known programs. As an official program, it dates back to 1975 — but by that time, Rotary clubs had already been sending students abroad for decades with the aim of promoting international understanding and friendship.

As you are no doubt aware, in March 2021, with the uncertainty of the pandemic and COVID-19 virus variants, inconsistent disease mitigation efforts, and the global imbalance of vaccine access – **the RI Board decided to suspend the Youth Exchange program through to 30 June 2022.**

Therefore, without further suspensions, we could look to resume hosting Inbound students in July 2022 . Our Outbound Student program would commence January 2023.

District 9510 would like to resume a Youth Exchange Program as soon as practicable but the success of the program is always dependant on participation by clubs. Either to host an Inbound Student and/or to support an Outbound Student. We have already received approaches from several RYE District Chairs from Europe wishing to exchange with our District.

Of course, this can only occur if the Rotary International suspension is lifted, international travel becomes possible, and governments are happy to issue the required permission for secondary student exchanges.

EXPRESSIONS OF INTEREST are being sought from Clubs wishing to participate in future Youth Exchange. Rotarians who would like to form part of the District 9510 Youth Exchange Committee are also encouraged to make contact with me.

Dear Rotarians,

Typhoon Rai, known locally as Odette, is the most severe storm to hit the Philippines this year – and one of the worst the world has seen in 2021. The equivalent of a category 5 hurricane, it caused widespread destruction that is only just starting to be understood.

ShelterBox will be providing emergency shelter and other essential items to people who have lost their homes

Damaged communication lines and fuel shortages are making needs assessments and travel extremely challenging – but our team in our Philippines office is working hard to understand the true extent of the destruction.

We need your help

ShelterBox Chief Executive, Sanj Srikanthan said:

"This deadly typhoon has left hundreds of thousands of people displaced just before Christmas and the damage to homes we are witnessing is truly harrowing.

"The Philippines is a country still rebuilding having been ravaged by storms far too often, but Typhoon Rai is on a scale our team there simply haven't seen before. It's left large areas of the country decimated, and we're expecting the death toll and damage reports to get much worse.

"We'll be responding with emergency shelter that we have stored locally to help Filipinos whose homes were in the path of the storm - many who haven't yet fully recovered from previous disasters."

Our teams will also work with Rotarians and local contacts to reach families as soon as possible. Please give what you can and stay safe this New Year.

Rotary International President Position Statement on Covid-19 Vaccination

Dear District Governors and Club Presidents,

We see the decision to vaccinate as a civic and humanitarian imperative. Rotary is not a political or religious organization, it is a service organization and this is the lens through which we are advising you of our position.

1. Global vaccination is the path to ending the pandemic and the emergence of new variants. Rotary endorses and strongly encourages vaccination for all individuals including our members who are currently able to be vaccinated against COVID-19. In areas where COVID-19 is surging, communities are facing extreme challenges, health systems are overwhelmed, and contentious rhetoric is dividing us. It is critical that the virus be contained so that the world may begin to heal. To that end, the purpose of this statement is to reinforce Rotary's position.
2. Misinformation has become an "infodemic" that hinders the fight against COVID-19. In line with our Four-Way Test, Rotary International and The Rotary Foundation are committed to providing our members with science-based information.
3. Rotary International staff at One Rotary Center were required to be vaccinated by 10 October 2021, as a criterion for employment after that date. RI's employee vaccination rate stands at over 99 percent.
4. Globally, Rotary is actively engaged in assuring equity in vaccine access to all people. Our efforts have included advocacy with the G-20, and a proof-of-concept program with GAVI/COVAX to leverage our frontline experience with polio eradication to facilitate vaccine delivery in several low- and middle-income countries where Rotarians are active. While we know many clubs are already deeply involved in COVID-19 prevention, we are working on additional strategies to multiply our collective efforts. GAVI/COVAX is a partnership including WHO and UNICEF focused on global access and delivery of COVID-19 vaccines.
5. Those children for whom vaccines are not currently available are at significant risk. Until vaccines are available for all children, the vaccination of adults is the best way to protect children who cannot be vaccinated. Pediatric admissions for COVID-19 are rising precipitously in areas of low vaccination.
6. Rotary salutes health care workers everywhere as they continue to provide lifesaving services. Local recognition of these heroes by each of our clubs can help to encourage them to continue their important work. Rotary abhors any harassment and attacks on healthcare workers.
7. Rotary and Rotaract clubs are encouraged to
 - set good examples by being exemplary role models;
 - redouble their efforts to support COVID-19 treatment, prevention, and vaccination efforts.
 - Vaccines have proven to be one of the greatest advances of modern medicine. The World Health Organization estimates that vaccines save between 2 to 3 million children's lives each year, and the Global Polio Eradication Initiative estimates the polio vaccine has saved more than 19 million children from paralysis. Vaccines are safe, effective and are responsible for eliminating or controlling many other vaccine-preventable diseases such as smallpox, measles, rubella, and Ebola. And now, there is the opportunity to end the COVID-19 pandemic through vaccines.
 - The eradication of polio remains a goal of the highest order for Rotary. We can apply the lessons we have learned in fighting polio to the efforts in responding to the COVID-19 pandemic.

Regards

Shekhar Mehta
President, Rotary International
