## SCIENCE AND ENGINEERING CHALLENGE

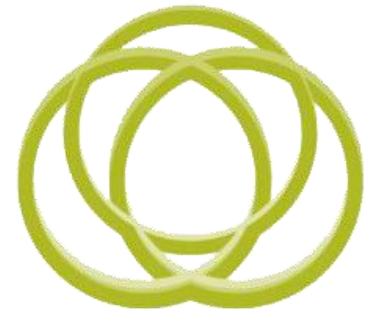

The Science and Engineering Challenge (SEC) is a nationwide STEM (Science, Technology, Engineering and Mathematics) student outreach program (for year 9-10 students) presented by the University of Newcastle in partnership with communities, Rotary clubs, universities and sponsors.

Through the SEC, students experience and compete with practical aspects of science and engineering which they would not usually see in their school environment.

Here in South Australia, the Rotary Club of Adelaide has been the major co-ordinator and responsible for obtaining sponsorship of this event for the past 2 decades. An invitation will be extended to other clubs and individuals to be involved in the Science and Engineering Challenges particularly during the Challenge week in **June 2022**.

Challenges will be held across 5 venues in South Australia, including Mt Gambier, Riverland, Port Lincoln and several days in Adelaide metro. We would love to have you involved with the 2022 Challenge and look forward to sharing more information, especially regarding volunteering, with you.

**If you would like to register an early interest in volunteering please email Ruth Conroy [ruth@conry.com.au](mailto:ruth@conry.com.au)**

## Social Media - are there any guidelines?

Social media offers the opportunity for people to create, share and consume content, connecting and engaging with others around the world. The popularity of social media has grown to the point where it is often a primary source of information and interaction for a growing proportion of the world's population.

Rotary embraces social media as an important tool for Public Relations, attracting new members, connecting with like-minded people and organisations and creating new opportunities to serve. Rotary also recognises the value of social media to members on a personal level, sharing information and ideas with family, friends and communities.

Rotary District 9510 recognises the need to provide some guidelines to ensure that members understand the organization's expectations and standards for social media engagement, particularly when members are involved in communicating about Rotary, its services, its people, its community partners and partner organisations.

D9510's recently approved **Social Media Engagement Policy** is intended for all D9510 Rotary clubs and members of those clubs. Clubs are encouraged to apply the guidelines contained within and ensure they are circulated and understood by all members. **Click [here](#) to read the Policy.**

## Do you need a speaker for your club meeting?

Or are you looking for a great fun and an excellent way to get a group of Rotarians together for a meaningful cause and a day of community connection?

My name is Hilary Carruthers and I am the Assembly Day Coordinator for the [Birthing Kit Foundation Australia-BKFA](#). We work in partnership with the Australian Community and a number of Global Organisations to pack and supply Clean Birth Kits to pregnant women living in rural communities and low-resource settings around the world.

We have recently had a few Rotary Clubs around Australia hold assembly days. An Assembly Day is when volunteers gather to bring the clean birth kits together from the component parts. The supplies arrive in bulk and volunteers assemble them into separate birthing kits, with every kit packed helping to build a better world for women.

Each kit contains 6 disposable components:

- **SOAP** – to wash the birth attendant's hands and the mother's perineum.
- **PLASTIC SHEET** – to prevent the mother and newborn coming into contact with the ground or an unhygienic surface.
- **GLOVES** – to cover the birth attendant's hands and provide protection from infections such as HIV for carers and care recipients.
- **GAUZE** – to wipe clear the newborn baby's eyes, and to clean the mother's perineum prior to giving birth.
- **CORD TIES** – to cleanly tie the umbilical cord.
- **A STERILE BLADE** – to cut the umbilical cord and reduce risk of newborn tetanus and infection.

We would like to extend this opportunity to as many Rotary Clubs as possible, as we have had great positive feedback from your members. Here is a comment from Phil Smith after he organised an assembly day for the Rotary Club of St Peter's in Adelaide.

*"The assembly of the kits took a little over an hour .... It was lots of fun & judging by the chatter everyone really enjoyed the event. Hands-on events are a great tonic for a Rotary Club."*

If you are having a meeting, we are happy to provide a speaker from the board of BKFA.

If you want more information on holding an assembly day, we suggest that you read the [Assembly Day Manual](#) which contains everything you need to know. It is a great concept for an end of year celebration/Christmas gathering.

So, if you'd like to **book an event**, just [click here](#) and complete the online booking form.

If you are needing a **speaker** at your next event, or have any have any questions or concerns, contact me.
