

# Rotary Matters

April 2023 DG Newsletter

Dear fellow Rotarians, partners and friends of Rotary,  
**Mad March v Environment**

Many of those who live in the South Australian part of our District, consider the month of March as “mad March”. I may consider it “Mayhem March”, Kathryn and I probably thought our diary was muddled, mixed and mighty. The month of March again, provided for us a magnificent glimpse of the activities of Rotarians and their clubs. Amazing things happening, would be an understatement.

Over the month, our District, Clubs and Members have explored and promoted most of the **Rotary Seven Areas of Focus**. We have witnessed the Supporting of the Environment, Community Economic Development, Peace Building & Conflict Prevention, Basic Education and Literacy, Maternal & Child Health, Disease prevention and treatment, Water Sanitation & Hygiene.

Most clubs continue to support Polio. The end is nearer, but the fight is not over and we cannot after thirty years of hard work to get to where we are worldwide, to step back. It is obvious that over the past couple of years with a growing debate about vaccinations, it can become easy to allow vaccination rates to lapse – and the risk of new outbreaks of wild polio become real.

Peace Prevention and Conflict Prevention probably has not resonated with members until their clubs have become involved with projects to assist war torn communities.

Our District supported New Dawn – Ukraine Project has gained good support within a short space of time. The committee will shortly forward through RAWCS its first instalment of financial support.

March is the month where we commence our own learning and preparation for the Rotary Year ahead. Our District Governor Elect Craig and Kiki have returned from the International Assembly and shared their experience, shared the theme of RI President Elect Gordon McNally.

District leadership teams have been meeting and preparing for a “seamless transition”.

We have also been pleased to select a District Governor Elect -designate, current President of the Rotary Club of Adelaide, Dr Rajeev Kamineni. Rajeev and his wife Priya will offer their stewardship to District 9510 during 2025/2026. Their G-train journey begins, as will their learning. I know that you join me in firstly offering congratulations, but also ensuring them of our genuine support for the tasks ahead.

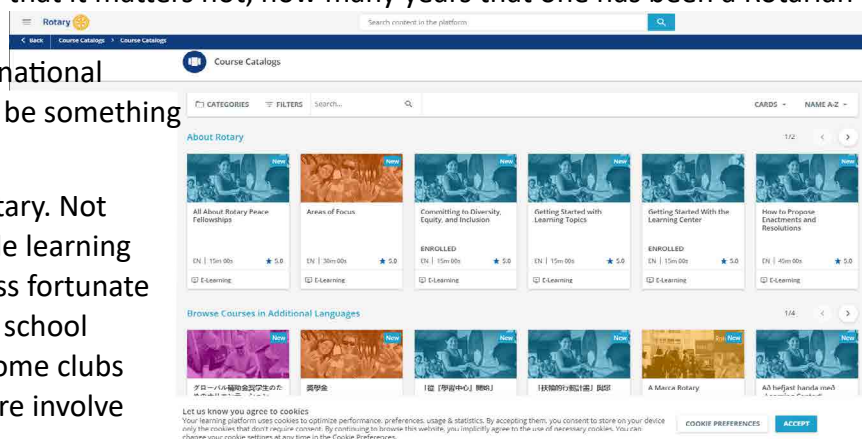

*continued over....*

I always consider at this time of the year, that it matters not, how many years that one has been a Rotarian or Rotaractor, attendance at training or undertaking learning on the Rotary International Learning Centre platform, that there will be something found anew.

Learning is life-long, particularly with Rotary. Not only to ourselves, but we strive to provide learning opportunities to all, throughout many less fortunate areas of the world, as well as supporting school programmes in our own communities. Some clubs provide curriculum support and others are involved with breakfast programmes.

Over the first weekend of March we had the pleasure of hosting within the District, Past RI President, current Chair of Trustees, Ian Riseley OAM and his wife, PDG Juliet. The **Rotary Clubs of St Peters and Adelaide** worked together to have a weekend focused on the Environment, coupled with a philanthropic evening at Adelaide Oval to provide an insight into the work of our charity the Rotary Foundation.

The word Environment can open up many a conversation. When we consider it in the context of the Rotary Seven Areas of Focus, we think of nature, the rivers, tree planting. Yet if I turn to my trusty Collins English Dictionary, rather than the internet – I am provided with: **1. external conditions or surroundings, especially those in which we work and live** **2. Ecology, the external surroundings in which a plant or animal lives, which tend to influence its development and behaviour.** **3. The state of being environed; encirclement.**

There is no doubt that Ian Riseley had a keen interest on the Ecology when considering Environment – he asked us back in 2017-2018 to each plant a tree. There were many trees planted throughout the world. During the Environment Forum held at Charles Campbell College we were exposed to some of the projects here in our District. The Rotary Club of Adelaide propagating and growing trees, Jack's Farm a project of the Rotary Club of St Peters. The Rotary Club of Glenelg project eliminated plastic straws from the cafés and restaurants of Jetty Road.

The ongoing work at Calperum Station was highlighted. The work there has been long and challenging, but is obviously a “labour of love”. The forum was followed up on the Sunday, with a visit to the Rotary Club of Seaford and their morning meeting at the Wetland Vineyard.

This is a well operated commercial eco vineyard, where the Micro Bat Boxes built by the **Rotary Club of Seaford** members and have been placed in trees around the vines. It was amazing to hear the story of the Micro Bats and what bugs they keep away from the grapes.

*continued over....*

We also had the opportunity of sharing with the members of the **Rotary Club of Goolwa**, where past RI President Ian planted the tree number 101 in Centenary Park, Goolwa.

Back in 2017-2018, Ian Riseley chose the theme Rotary – Make a Difference. In announcing that theme he was to say “We’ll answer the question - what is Rotary? Whether we’re building a new playground or a new school, improving medical care or sanitation, training conflict mediators or midwives, we know that the work we do will change people’s lives – in a way large & small – for the better.”

In 2023, we are still maintaining this emphasis, but what I am witnessing as we visit the projects of our clubs is that first part of the Collins English Dictionary interpretation for Environment exemplified: 1. external conditions or surroundings, especially those in which we work and live. Clubs and members have provided a wonderful, happy cohesive, inviting, supportive atmosphere around the tasks that they are undertaking. The “environment” is electric.

It is pleasing to appreciate that Rotarians and Rotaractors are not just dinner mates or the casual “club acquaintance” – they are friends. It has been our current RI President Jennifer Jones this year who has asked that we invest in our members, make them feel valued. Kathryn and I see this time and time again. We too have been welcomed, as if we “have been” long-time friends. I use the term “have been” with a sense of confidence that it has been altered to “are life-long friends”.

As the month of March progressed, our interaction with members varied in location, BBQ or dining room dinner, dancing to laying the tables for the **Mildura Deakin Longest Lunch**. Now I do point out that the dancing and the laying of tables, is quite a different event – there was not dancing on tables!

*continued over....*

Peace Building & Conflict Prevention was certainly the focus of Harmony Day. A number of Peace Poles were unveiled throughout the District. Kathryn and I had the pleasure of sharing the multicultural activities in **Whyalla** for Harmony Day and with His Worship the Mayor, pleased to unveil peace Pole #23 in Whyalla Rotary Park.

These events brought together in harmony some who once would have been State enemies. In colourful costumes, people stood as one and sang John Lennon's Imagine.

Our late Queen Elizabeth in her Christmas broadcast 1954 said "When it is night and wind and rain beat upon the window, the family is most conscious of the warmth and peacefulness that surround the pleasant fireside. So our Commonwealth hearth becomes more precious than ever before by the contrast between its homely security and the storm which sometimes seems to be brewing outside, in the darkness of uncertainty and doubt that envelopes the whole world".

The residents of Whyalla were no doubt aware how precious their new "environment" is. But many members throughout our District have shared this thinking as they have rallied to support those whose lives have been torn apart in Ukraine, as have those displaced and effected by the Turkiye/Syrian earthquake or much closer to home – New Zealand. Life can become fragile overnight – an act of nature, the "environment" is shattered. But Rotary Imagine and respond!

It was also another wonderful opportunity of sharing with the **Rotary Clubs of Glenelg and Holdfast Bay** with their aquatic access chair. Their partnership with Local Government and Quad SA has allowed people who have been restricted from enjoying the recreation of the beach and the pleasant and health outdoor "environment" to again have the chance of what most take for granted. The smiles were broad, the happiness was hearty and the gratitude overflowing!

Again it was our late Queen Elizabeth, this time as part of her Christmas broadcast 2008 said "When life seems hard, the courageous do not lie down and accept defeat; instead, they are all the more determined to struggle for a better future".

Rotary looks to support those lives – again repeating past RI President Ian Riseley: *"Know that the work we do will change people's lives – in ways large or small – for the better"*.

As we begin Holy week, Kathryn and I extend to you all, our best wishes for a happy, safe and enjoyable Easter!

Its at this time of the calendar that we easily reflect upon being **Proud of our past – Confident of the future!**

Best wishes,

*Paul*

District 9510

**IMAGINE  
ROTARY**

Rotary Matters introduced three new pages of information and resources, which have been popular and so we will be continuing to include **The Rotary Foundation**, **Membership Matters** and **Public Image**.

The pages will be included each month and cover a different topic or resource, so we hope these pages will keep you informed with useful content. We are making greater use of **QR Codes** for quick access to district website pages and or links to information across the Rotary Network.

For information on QR Codes please contact the Public Image team or [click on this page link](#).

## Community Impact Expo on Saturday 3rd June

'The Community Impact Expo' on Saturday 3rd June has been organised with Clubs and Rotary Projects and partner volunteer organisations have registered their intention to have a presence to showcase their projects to the public.

This is an ideal opportunity for Clubs to showcase their projects and Rotary to the public.

A marketing campaign has been developed specifically aimed for inviting the public to the venue on the Adelaide University presinct.

This event is free - and so we can arrange various needs please register for this event.

[Registration via an on-line form.](#)

Saturday night will conclude as a **Celebration Dinner** to be held at the **National Wine Centre**. An ideal opportunity to mix with your Rotary and Rotaract friends at South Australia's most interesting venue.

This is a not to be missed event at which we will be celebrating the imminent 100 years of Rotary in South Australia with the launch of a very relevant centenary project by former Governor of South Australia Hon Hieu Van Le AC.

Arrangements are being made for a night of wonderful entertainment, fun and celebration with some very special guests to be shared with members from across our vast district.

**Register on link  
on right**

## Eli on Youth Exchange in Japan

Centralian Senior College student, Eli Hocking, now on **Rotary Youth Exchange** in Japan says her new life is SUGOI (Japanese for Amazing!).

She left Alice Springs in January and caught up with her class on Zoom recently. The first thing the class noticed was she was wearing the school winter uniform. Then they noticed where she was living with her host family in a high-rise apartment not far from Tokyo.

She said everyone had made her feel very welcome and she has made heaps of friends at school.

Her favourite food is Katsudon (pork cutlet on rice) and she demonstrated how well she can use chopsticks now.

Her host family gave her a beautiful set of chopsticks just for her to use. Now that she is in Japan she said she is learning Japanese much faster with the help of her classmates.

### Youth Exchange gaining support again

The Chair of D9510 Youth Exchange, PDG David Jones, says the program is gaining support steadily since its restart after COVID-19. At the present time we have two inbound students from Germany and Brazil and four outbound students in Italy, Japan, France and Germany.

In July a further 7 students will arrive to be hosted by D9510 clubs and an equivalent number of D9510 students will leave for overseas Rotary hosts in January 2024.

### Calperum update correction...

Hopefully you have read the recent Calperum newsletter which included news and photos showing the latest upgrades to Rotary House at Calperum Station near Renmark. Unfortunately the BSB included in the newsletter was incorrect.

**The correct BSB is: 105-029**

( Not 015-029 ).

The **account number is 088 474 940** – which was correct in the newsletter.

The Calperum Committee sincerely apologises for this error and any inconvenience it may have caused.

*Jeff Cluse*

## Protecting the Environment Weekend

On Saturday 11th March, CATE (Calperum And The Environment) and the RC St Peters Environment Committee hosted a forum 'Protecting the Environment' at Charles Campbell College.

Environmental projects from across the District were presented including 'Jack's Farm' a long term project of the **RC St Peters**. Other clubs presented projects from Calperum Station near Renmark, where 31 clubs are involved, saving Mallee emu wrens, bushfire restoration of fencing and other environmental work by **RC Onkaparinga**, growing trees for life and reducing the use of plastic straws in **Glenelg** by replacing them with Rotary branded paper straws at food and drink outlets in the tourist precinct.

Past RI President Ian Riseley AM and Chair of the Trustees of the Rotary Foundation, addressed the gathering and commenced by saying that everyone present at the forum was there because they care about the environment.

He stated that Rotary founder Paul Harris planted trees in Chicago.

Past Rotary International President Paulo V.C. Costa made the environment one of his primary causes more than 30 years ago, creating a Preserve Planet Earth program and committee to examine ways that clubs and members could plan and carry out environmental initiatives.

During Ian Riseley's Presidency in 2017-18, he asked that Rotarians plant 1.2 M trees, one for each Rotarian in the world. The Rotary community took him up on that challenge and planted many times more than that number.

More recently Rotary's newest area of focus is Protecting the Environment, which will enable Rotarians and Rotary Clubs to bring about positive change in the world and increase our impact.

On Sunday 12th March, PRIP Ian Riseley AM and his wife PDG Juliet, DG Paul Thomas and several Rotarians visited two regional projects

The first was at Tatachilla winery hosted by the **RC Seaford**. Their project in conjunction, with the winery, is building microbat box homes. These small bats eat insects, allowing the vine growers to avoid spraying insecticides. The project also included shrub planting to attract birds and other animals that also eat insects to reduce the pest population in the vineyard.

The second stop was at Goolwa where the **RC Goolwa** has been extremely busy with native revegetation tree planting. Because of the limestone base, digging holes is fraught with difficulty with only one in three holes successful for tree planting. PRIP President Ian Riseley planted the club's 101st tree to add to their current 100 collection.

Past President Ian said the breadth and depth of environmental projects in D9510 far surpasses anything he has seen before.

## SCIENCE AND ENGINEERING CHALLENGE

### Volunteer Expression of Interest

The Science and Engineering Challenge (SEC) has been operating since 2003 here in South Australia. The SEC aims to inspire and motivate year 9 and 10 students to begin a journey along a pathway to make a difference to our community by studying science and engineering at a senior level and increasing their awareness of related careers. The SEC provides a fun filled day with exciting and challenging activities that will engage the minds of our young participants!

To make this happen we need volunteer supervisors, working in small teams of 2 or 3 to supervise a group of students undertaking one of the hands-on activities. Full instructions and briefings are provided prior to the day.

Your main job will be encouraging the students to start and, shortly after, encouraging them to finish! Many volunteers return year after year they enjoy it so much!

#### Volunteers are required for the following dates:

- Wednesday 14 June @ Flinders Uni
- Thursday 15 June @ Flinders Uni
- Tuesday 8 August @ Findon
- Wednesday 9 August @ Findon
- Thursday 10 August @ Findon
- Friday 11 August @ Findon

If you can spare a day or more, please pop onto the [Rotary Club of Adelaide site and Register](#).

## Playgrounds for Sierra Leone

Under the supervision of Rotarians from **RC Mt Barker**, members of the **RC Regency Park** recently took apart a 20 year old playground from the Northgate Reserve which will be refurbished and sent for re-erection in Sierra Leone.

The RC Mt Barker has now sent a number of no longer wanted playgrounds overseas to developing countries.

Disassembled playgrounds from Mt Barker and Murray Bridge ready to be packed in containers at Donations in Kind.

## Classics in the Park

**RC Cambelltown**, helped by **RC Morialta** on the BBQ and **Magill Sunrise** by marshalling, ran a highly successful Classics in the Park in February. With over 200 classic vehicles on display, the event raised \$19,000 for the Country Fire Service - particularly the local units in the Campbelltown area. The club had support from over a dozen businesses including PDG Jeff's Paradise Mazda.

## THINK TAX TIME – THINK THE ROTARY FOUNDATION (even if you are retired and no longer pay tax)

Dear Rotarians, many of you are already passionate supporters of and donors to the Rotary Foundation – Rotary's own charity and for very important reasons. Not only is the Foundation consistently in the top 10 charities according to Charity Navigator, but also this is the charity that funds our District and Global Grants used to perform our work here and across the world.

We also continue the mission to eradicate Polio from the world and with just 2 cases so far this year we have hope that we are reaching the end goal. Whilst this may sound really close, remember that we still need to deliver 450 million doses of Polio vaccine per year to continue that journey.

As we reach the end of the Rotary Year many Rotary and community members will see their achievements acknowledged with a "Paul Harris Fellow" (PHF) Award which recognises your club or its members' donation of US\$1000 to the Foundation.

Some of you may think that you are unable to commit to \$100 a year to become a Centurion, or US\$1000 to become a member of the Paul Harris Society, but perhaps you haven't thought in terms of say a \$10 monthly direct debit (less than the cost of a cup of coffee per week) to also become a Centurion or \$130 per month to become a PHS member.

One-off donations, large or small are always welcome at any time, we simply encourage you to consider your own Rotary Foundation, when choosing where to put your charity dollar.

For others you may be searching for a way to make a more significant donation now or in the future, perhaps from your future estate and I would be happy to direct you to the right person from our RISPPPO office to help you organise this.

For our ongoing Centurion donors and Paul Harris Society members, we thank you for your continued support and this is of course a reminder for those who have not yet made this year's contribution that the end of year is fast approaching. *To track your donations:*

- > Go to [rotary.org](http://rotary.org) > Click on Member Center and log in > Click on the V at the right of your name in top right hand corner > Go to your My Donations which opens up the Donor Self Service page
- > Then on the right Click Donor History Report > It will slowly open up to "View your contribution history" > In "Individual Reports", click on "Donor History Report"

This will then show last year's and current year's donation in US DOLLARS and of course your total. On the right are your Recognition Points in US Dollars, every person's will vary even if they pay the same amount each year, depending on the exchange rate at the time they donated.

To donate visit [rotary9510.org](http://rotary9510.org) and download a form from the Rotary Foundation dropdown or alternatively use this link: Rotary Foundation - <https://my.rotary.org/en/donate>

Also, a timely reminder not to leave your PHF requests to RISPPPO for your changeover until the last minute. The time to apply is now to avoid being caught in the end of year rush and not receiving the award in time.

### Membership Matters

Hello everyone

We are working on a new way to follow up membership leads. Some of you may already know that membership leads are sent through from Rotary International and are people who have expressed an interest in joining Rotary.

Previously, there has not been a lot of structure in how we follow up these leads which has resulted in many opportunities being overlooked. Well this is changing and we seem to be having a modicum of success.

As leads are uploaded through Rotary International, the potential candidates are contacted by the Membership Director to determine the wants and needs of the candidate. Once these needs have been assessed it is then determined which Area/Club would best meet the needs of the candidate.

The Membership Director then contacts the Area Governor for the determined Area and a discussion is had to specify which Club is most suited. The Area Governor contacts the candidate to arrange a meeting and further discuss how Rotary can meet their needs and then arranges for the candidate to connect with the relevant Club. The Membership Director also connects with the President of the determined Club to advise of the candidate's interest in attending their Club. This process creates an opportunity for the candidate to connect with several points of contact and provide support to them should they have any questions.

As mentioned, there has been success following this process. Where the system breaks down is the lack of contact details available on ClubRunner. Several opportunities have been missed due to not being able to contact Area Governors and/or Presidents as their details have not been added to ClubRunner. ClubRunner is an integral tool we can all use to access relevant information when needing to contact Clubs/members however it is also a very important tool for the District to use for reporting and collating information. When information is not up to date, reports are not accurate and it limits availability for access to information.

I ask all members, especially members in leadership roles to update their contact details via ClubRunner, preferably phone numbers or, at a minimum, email addresses. This will hopefully increase opportunities when connecting potential members to Clubs. We all know how important new members are.

If ClubRunner isn't your forte I am more than happy for you to email your details to me and I can upload them for you or ask a member in your Club. Please don't hesitate to reach out. We are more than happy to help.

The coming months are looking to be very exciting so watch this space. I look forward to sharing some exciting activities in the membership area. If you have any questions relating to membership and how the District can support your Club growth see the contact details below. You can also connect with your Area Governor for support.

Take Care, please don't hesitate to reach out z  
with any questions you may have.

*Dannielle*

I AM ONLY ONE, BUT I AM ONE. I  
CANNOT DO EVERYTHING, BUT I  
CAN DO SOMETHING. AND I WILL  
NOT LET WHAT I CANNOT DO  
INTERFERE WITH WHAT I CAN DO.

— EDWARD EVERETT HALE

## Renovation of Rotary House Calperum

As the flooding recedes teams of Rotarians have been travelling to Calperum to renovate Rotary House (the original homestead now used to house Rotary clubs working on projects at Calperum) and other buildings.

The levee is immediately alongside Rotary House and it was touch and go as to whether the river would breach it. All the furniture was removed from the house and adjacent accommodation buildings and the levee height was raised. The water stopped rising just centimetres from the top of the bank.

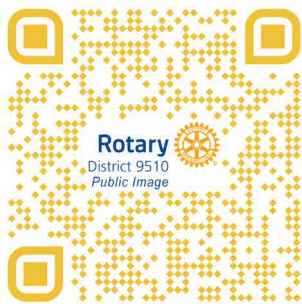

With the furniture out it was decided to install a floating floor throughout as well paint the interior of the entire house.

Rotarians from the following clubs – **Adelaide, Edwardstown, Magill Sunrise, McLaren Vale, Regency Park, Unley and Walkerville** volunteered and formed a number of teams in late February early March to complete the job.

Paint Supplies at Hendon donated all the paint and Bunnings at Berri provided much of the flooring at half price.

The CATE committee is now looking for support from clubs to pay for the rest of the flooring and to extend this to other accommodation buildings around the homestead. CATE committee – BSB 105-029 A/C 088 474 940 – Note reference Calperum Rectif.

## Exciting News – Rotary Radio Promotions Announcements on Community Radio stations in District 9510 – 18 Community Stations

As of 20 February 2023 there are now 18 Community Radio stations airing these Rotary Announcements, which are listed below:

- 5EBI – (multi-ethnic community broadcaster located in Adelaide)
- Happy FM 90.1 – (Victor Harbor/Goolwa)
- BBBFM – (Barossa Valley)
- 3MBR FM (Murrayville)
- Hot FM – (Mildura/Wentworth etc)
- Lofty 88.9FM (Mt Lofty, Hills)
- WowFm – (Semaphore)
- 2Dry FM – (Broken Hill)
- Adelaide's Coast FM 88.7 (Adelaide)
- Radio Adelaide – (Mid North, the Yorke Peninsula and Fleurieu Peninsula, the southern Barossa, Kangaroo Island, Riverland and parts of the Eyre Peninsula)
- RoxFM 105.5 – (Roxby)
- Trax FM 105.5 (Roxby)
- Tribe FM 91.1 (Willunga/Onkaparinga)
- Triple Y 107.7 (Whyalla)
- 5PBA FM 89.7 (Adelaide)
- 5TCB FM (Bordertown)
- Riverland Life (Riverland)

So you may have people contacting your clubs direct from hearing these promotions. Please let the PI team know if you are receiving any enquiries, we'd love to give feedback to stations who have so kindly donated their time and airspace for Rotary. Please also tune in to any of the above areas to listen to the announcements. Public image team are presently showcasing these stations on the District Fb page, we encourage you to share these posts to your club facebook page and friends so people can listen in. You never know who may be looking to volunteer in your community.....

Want to publish one of your great projects in the Zone 8 magazine – Rotary on the Move.

In February and March's issue there have been 4 stories from our District in these publication and we encourage you to subscribe (free subscription) to receive the publication if you haven't already subscribed. Have a great story to tell? We encourage you to send your stories across for consideration in their publication.

Refer to the link below for more info <https://hail.to/rotary-on-the-move/publication/hpQKLt>

Rotary Down Under – you can also send stories to Rotary Down Under for consideration for publication and recently we have had quite a few from Rotary District 9510 published.

[editorial@rotarydownunder.com](mailto:editorial@rotarydownunder.com)

## Deidre Hughes Citizen of the Year Victor Harbor

The RC Encounter Bay successfully nominated its member Deidre Hughes because she exemplifies the ideals of 'Service above Self' in three areas:

1. Service to the community through Rotary and Rotary initiatives.
2. Commitment to opportunities for the aged through employment and Probus.
3. Leadership and training across the Southern Fleurieu and beyond in relation to health services and the training of young people.

In 2006, Deidre Hughes was the very first woman to be accepted into the RC Encounter Bay, pioneering and creating a pathway for those to follow. She was quickly accepted as she demonstrated outstanding skills, commitment, organisation and initiative in a range of service areas. She was elected President in 2009, and by 2011 had been elected as Assistant Governor for D9520. She was awarded a Paul Harris Fellow for her substantial assistance to the club and in supporting and guiding clubs across the district. Her clear focus was on building better communities, with service being the key to all activities and projects that were undertaken.

In 2014 Deidre Hughes for the next 4 years, initiated, developed, directed and managed the markets at Goolwa and Port Elliot two weekends a month. The markets raised \$80,000 each year for club distribution. A \$40,000 grant was made towards the creation of a men's shed. Other significant projects funded included computers for the disadvantaged, and driver education programs for students. Many local community organisations received support in the way of funds during this period of club history. The club has now awarded her two Paul Harris sapphire pins for her continuing achievements in the community through Rotary.

As if her many and varied roles in Rotary were not enough, Deidre sought opportunities in her retirement to provide activities for the elderly in Victor Harbor. She became a foundation member of the Victor Harbor/Granite Island Probus Club.

She was President of the club of 100 members in 2016, and for the next four years she became the Rotary District Probus Chair, travelling to clubs as far afield as Mildura and Broken Hill to create and support new clubs.
