Mr. Harrison continued to build his acting career and collaborate creatively with some of the best talent in the industry.

Following his time in LA, he lived and worked in New York City for more than 13 years, where he co-starred in his feature length independent film directorial debut, worked in freelance media, and was featured in global ad campaigns for Target, Sony, and Xbox 360.

Currently Mr. Harrison resides in Austin, TX, working alongside partners and leading industry professionals to create a new and exciting kind of music experience.
